Subject: Docket No. 09-AAER-1C

To: California Energy Commission

Please regulate the energy use of TV's! If we wait for the market to take care of it, it will never get done.

Also, I read that my microwave, telephone, computer, and other appliance use electricity when they are not being used. This is ridiculous! The environmentalists recommended that I unplug everything at night or when not in use. That is also ridiculous. Make a regulation that ALL appliances only use electricity when in use. We cannot afford to waste our natural resources like this.

Sincerely,
Donald Dinelli
