RE: NRG Solar LLC's Request for Extension of RPS Certification Deadline for NRG Solar Kansas South LLC (CEC-RPS-ID No. 61264A)

Dear Mr. Zavesoff:

This is in response to NRG Solar LLC's May 14, 2014 request for extension of the RPS certification application deadline for the NRG Solar Kansas South LLC facility. Resolution 14-0422-11, adopted at the Energy Commission's April 22, 2014 Business Meeting, established a process to allow the Executive Director to extend and waive application deadlines for RPS certification in certain circumstances and specified the criteria and process for requesting such extensions and waivers.

Energy Commission staff has reviewed the documentation submitted by NRG Solar LLC pursuant to Resolution 14-0422-11. Based on the explanation of the circumstances surrounding NRG Solar LLC's inability to submit a timely application for certification and the financial consequences of not granting an extension, I have determined it is appropriate to grant an extension of the RPS recertification deadline from September 5, 2013, to November 26, 2013, and to allow the original RPS eligibility date of November 9, 2010, for the NRG Solar Kansas South LLC facility to be reinstated.

Energy Commission staff will provide NRG Solar LLC with a revised RPS Certificate for the facility that shows the original eligibility date in the near future. If you have further questions about this matter, please contact Kate Zocchetti at [Kate.Zocchetti@energy.ca.gov] or 916-653-4710.

Sincerely,

A handwritten signature in blue ink, appearing to read 'Rob P. Oglesby', with a long horizontal flourish extending to the right.

Robert P. Oglesby
Executive Director
