Re: Public Notice – Permits to Construct; Rule 212(d)  
Reliant Energy, Etiwanda, Proposed San Gabriel Generating Station (SGGS)  
Facility I.D. No. 115313  
Location: 8996 Etiwanda Avenue, Rancho Cucamonga, CA 91739  
(07-AFC-2)

Dear Mr. Perri:

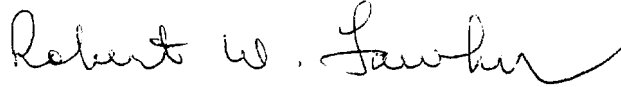

Pursuant to the letter from Michael D. Mills to the undersigned, dated April 1, 2008, enclosed please find the following:

1. Copy of the public notice of intent to issue a permit for the above-referenced SGGS, which was sent to all property owners within ¼ mile of the facility, with date of distribution (Attachment 1).
2. The information used to determine the addresses within the ¼ mile radius includes the map sent to Chicago Title Company, the map generated by Chicago Title Company, lists of mailing addresses and parcel information generated by Chicago Title Company for the parcels within the radius area (Attachments 2, 3, 4 and 5).
3. Address labels prepared from the information provided by Chicago Title Company are attached (Attachment 6). The public notice was sent to all owners of parcels on this list except Reliant Energy. One notice was sent to owners of multiple parcels, with all parcels identified on the notice.
4. Proof of distribution of public notice (Attachment 7).

Mr. Chris Perri  
May 6, 2008  
Page Two

If there are any questions, please call me at (702) 407-4884.

Sincerely,

A handwritten signature in cursive script that reads "Robert W. Lawhn".

Robert Lawhn  
Director, Environmental Compliance

Attachments

1. Notice of Intent to Issue Permit with Distribution Date
2. Quarter-mile Radius Map Sent to Title Company
3. Map Received from Title Company
4. Mailing Addresses Received from Title Company
5. Parcel Information Received from Title Company
6. Address Labels Used to Send Notice to Parcel Owners
7. Copies of Certified Mail Receipts from Post Office

## NOTICE OF INTENT TO ISSUE PERMIT PURSUANT TO AQMD RULES 212 AND 3006

This notice is to inform you that the South Coast Air Quality Management District (AQMD) has received and reviewed permit applications for the proposed Reliant Energy, Etiwanda San Gabriel Generating Station (SGGS) Power Plant Project and intends to issue a Title V Facility Permit.

The AQMD is the air pollution control agency for the four county-region including Orange County and parts of Los Angeles, Riverside and San Bernardino counties. Anyone wishing to install or modify equipment that could control or be a source of air pollution within this region must first obtain a permit from the AQMD. Under certain circumstances, before a permit is granted, a public notice, such as this, is prepared by the AQMD and distributed.

The AQMD has evaluated the permit applications listed below for the following facility and determined that the project meets or will meet all applicable AQMD rules and regulations based upon the evaluation described below:

**FACILITY:** Reliant Energy Etiwanda, Inc  
8996 Etiwanda Ave  
Rancho Cucamonga, CA 91739  
Facility ID No: 115315

**CONTACT:** Mr. Robert Lawhn, Director, Environmental Compliance  
8996 Etiwanda Ave  
Rancho Cucamonga, CA 91739

### AQMD APPLICATION NUMBERS

Application Number	Equipment Description
468530	Gas Turbine No. 1
468531	Air Pollution Control Equipment, SCR/CO Catalyst for Turbine No. 1
468533	Gas Turbine No. 2
468534	Air Pollution Control Equipment, SCR/CO Catalyst for Turbine No. 2
468535	Auxiliary Boiler
468536	Aqueous Ammonia Storage Tank
468529	Title V Significant Modification

### PROJECT DESCRIPTION

The project consists of the installation of two (2) new Siemens-Westinghouse combined cycle SGT6-5000F gas turbines with associated air pollution control systems, an auxiliary boiler and a 15,000 gallon capacity aqueous ammonia storage tank. The plant will have the capability of generating 721 MWs of electricity. Since the above equipment has the potential to emit pollutants in excess of the emission levels specified in AQMD Rule 212(g), a public notice is required.

Distribution Date: April 16, 2008

**PROJECT EMISSIONS**

After the initial commissioning period, the total maximum monthly emissions from the operation of the proposed equipment in conjunction with the use of air pollution control systems is not expected to exceed the following:

Pollutant	Maximum Monthly Emissions, (pounds per month)
Nitrogen Oxides	29,523
Carbon Monoxide	69,414
Volatile Organic Compounds	12,182
Particulate Matter (diameter less than 10 microns)	9,248
Sulfur Dioxide	2,272

As a result of the burning of natural gas in the gas turbines, emissions from the proposed project also contains some pollutants that are considered toxic under AQMD Rule 1401-New Source Review of Toxic Air Contaminants. Therefore, a health risk assessment was performed for this project. The health risk assessment uses health protective assumptions in estimating actual risk to an individual person. Even assuming this health protective condition, the evaluation shows that the maximum individual cancer risk increase from the project is less than one-in-one-million. Also, acute and chronic indices, which measure non-cancer health impacts, are less than one. These levels of estimated risk are below the threshold limits of AQMD Rule 1401 (d) established for new or modified sources and below AQMD Rule 1309.1(b)(5)(A) for power plants. The health risk assessment (HRA) results are shown in the table below:

HRA Results

	Cancer Risk	Acute Hazard	Chronic Hazard
Gas Turbine No. 1	1.31*10 <sup>-7</sup>	0.032	0.008
Gas Turbine No. 2	1.14*10 <sup>-7</sup>	0.038	0.010
Auxiliary Boiler	9.3*10 <sup>-8</sup>	0.003	0.0004

Also, based on the engineering evaluation for this project, the AQMD has determined that the project complies with all of the applicable requirements to be qualified to access Priority Reserve credits pursuant to AQMD Rule 1309.1. However, the project must comply with additional requirements prior to the AQMD's release of the Priority Reserve credits and issuance of the Final Title V Permit.

This facility is a Federal Title V and Title IV (Acid Rain) facility. Pursuant to AQMD Title V Permits Rule 3006 – Public Participation, any person may request a proposed permit hearing on an application for an Initial Title V or significant permit revision by filing with the Executive Officer a complete Hearing Request Form (Form 500G) for a proposed hearing within 15 days of the date of publication of this notice, as shown below. This form is available on the AQMD website at <http://www.aqmd.gov/permit/Formspdf/TitleV/AQMDForm500-G.pdf>, or alternatively, the form can be made available upon request by contacting Mr. Chris Perri at the e-mail and telephone number listed below. On or before the date the request is filed, the person requesting a proposed permit hearing must also send by first class a copy of the request to the facility address and contact person listed above.

**THE FOLLOWING REQUIREMENTS MUST BE COMPLIED WITH PRIOR TO THE ISSUANCE OF FINAL PERMIT**

In order for AQMD to be able to release any Priority Reserve credits and issue a Final Title V permit to this project, the applicant must comply with additional requirements of AQMD Rules and Regulations, including but not limited to the following:

Distribution Date: April 16, 2008

**Rule 1303(b)(2)**

Reliant Energy must provide emission offsets for NO<sub>x</sub>, VOC, SO<sub>x</sub>, and PM<sub>10</sub> emissions. Emission offsets for PM<sub>10</sub>, SO<sub>x</sub>, and VOC will be provided in the form of Emission Reduction Credits (ERCs). Some or all of the emission offsets for PM<sub>10</sub> and SO<sub>x</sub> may also be obtained from the AQMD's Priority Reserve pursuant to AQMD Rule 1309.1.

**Rule 2005(b)(2)**

Emission offsets for NO<sub>x</sub> will be in the form of RECLAIM Trading Credits (RTCs).

**Rule 1309.1(c)(2)**

Reliant Energy must pay a mitigation fee pursuant to subdivision (g).

**Rule 1309.1(c)(3)**

Reliant Energy must conduct a due diligence effort [based on an ERC cost not to exceed the applicable mitigation fee for that pollutant at the location of the electrical generating facility (EGF) and as specified in subdivision (g) of Rule 1309.1] approved by the Executive Officer to secure available ERCs for requested Priority Reserve pollutants. Such efforts shall include securing available ERCs including those available through state emission banks or creating ERCs through SIP approved credit generation programs as available.

**Rule 1309.1(c)(4)**

Reliant Energy must enter into a long-term contract (at least one year) with the State of California to sell at least 50 percent of the portion of power which it has generated using the Priority Reserve Credits and the Executive Officer determines at the time of permitting, and based on consultations with State power agencies that the State of California is both entering into such long term contract and that a need for such contract exists at the time of permitting, if the facility is a net generator.

**Rule 1309.1(d)(6)**

Reliant Energy must use any ERCs held first, before access to the Priority Reserve is allowed.

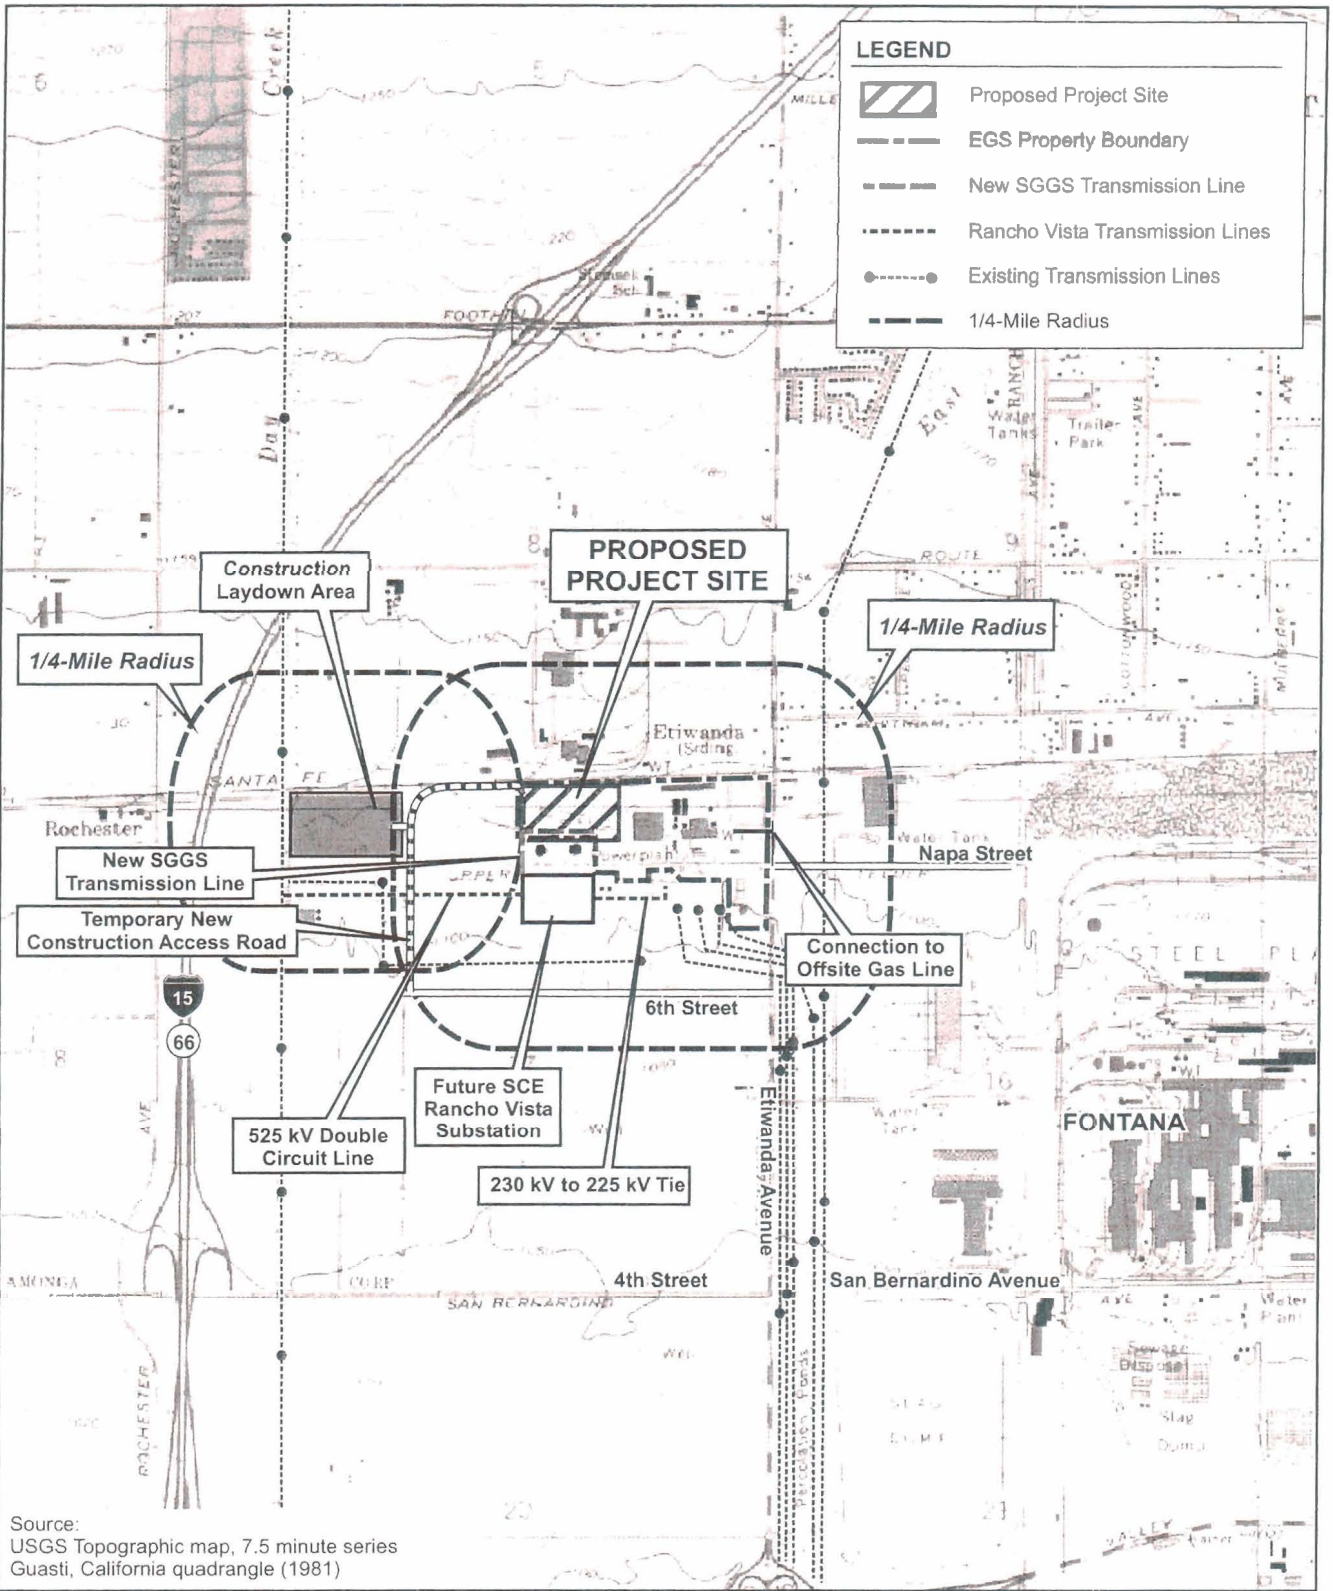

**Rule 1309.1(d)(14)**

Reliant Energy must secure final certification and approval for this project from the CEC, and must enter into a long term contract with Southern California Edison Company or the San Diego Gas and Electric Company or the State of California to provide electricity in Southern California, or petition the AQMD Governing Board for a waiver of this requirement.

The proposed permit and other information are available for public review at the AQMD's headquarters in Diamond Bar, and at the Paul A. Biane Library - located at 12505 Cultural Center Drive, Rancho Cucamonga 91739. Additional information including the facility owner's compliance history submitted to the AQMD pursuant to Section 42336, or otherwise known to the AQMD, based on credible information, is available at the AQMD for public review by contacting Mr. Chris Perri (cperri@aqmd.gov), Engineering and Compliance, South Coast Air Quality Management District, 21865 Copley Drive, Diamond Bar, CA 91765-4182, (909) 396-2696. A copy of the draft Permit to Construct can also be viewed at <http://www.aqmd.gov/webapp/PublicNotices/Search.aspx>.

Anyone wishing to comment on the air quality elements of this permit must submit comments in writing to the AQMD at the above address, attention Mr. Michael D. Mills. Comments must be received within 30 days of the distribution/publication date of this notice, as shown below. If you are concerned primarily about zoning decisions and the process by which the facility has been sited in this location, contact your local city or county planning department or the California Energy Commission at (916) 654-3936. For your general information, anyone experiencing air quality problems such as dust or odor can telephone in a complaint to the AQMD 24 hours a day by calling 1-800-CUT-SMOG (1-800-288-7664).
