Public Scoping Meeting for EIS*

**PUBLIC SCOPING MEETING COMMENT FORM**

Must be received on or before July 27, 2012

(Please print clearly)

No infrastructure in place out here for this. Why not in Bakersfield at old PG&E plant where labor force is. Air Pollution, why can't they burn natural gas instead of coal. Water define blackish water and is it going to be long term. What impact is this going to have on water table. Who or what is going to control how much water plant uses? Really does it matter what anyone in this area says? It is not wanted at this location.
