Mr. Dave Singleton  
California Native American Heritage Commission  
915 Capitol Mall, Rm. 364  
Sacramento, CA 95814

Dear Mr. Singleton,

**PROPOSED NEW POWER PLANT IN SAN BERNARDINO COUNTY, NEAR THE TOWN OF VICTORVILLE**

The California Energy Commission has received an application for a permit to construct a new, hybrid, solar-natural-gas-fired power plant southwest of the town of Victorville.

A portion of the Energy Commission's permitting process involves notifying citizens and addressing their concerns. We anticipate holding public workshops and hearings in the future, and we would like to notify representatives of the Native American community concerning the time and place of those public workshops. To help us do this, please provide (by fax, if possible) a current list of representatives of the Native American community who, to your knowledge, wish to be contacted concerning construction disturbances in their area. Please limit the list to those with traditional ties to San Bernardino County. We do not need any information concerning the location of sacred sites.

Please fax the list to: Beverly E. Bastian at (916) 651-8868.

Your timely response will be much appreciated.

If you have any questions, please call me at 654-4840. Thank you for your assistance.

Sincerely,

A handwritten signature in cursive script that reads "Beverly E. Bastian".

Beverly E. Bastian  
Environmental Protection Office  
Energy Facilities Siting Division
