

HECA Project – Public Scoping Meeting for EIS

PUBLIC SCOPING MEETING COMMENT FORM

Must be received on or before July 27, 2012
(Please print clearly)

California Energy Commission

**DOCKETED
08-AFC-8A**

TN # 66248

JUL 16 2012

Questions for the applicant:

- ① What is the estimated space currently available in the Elk Hills reservoir?
- ② What data is the 3m tons of CO₂ P.Y. based on? Such a round figure is too easy, is this based on startup quantities or lifetime estimates?
- ③ Are there required offsets for coal transport?
- ④ Are there required offsets for NO_x, SO₂ etc.?
- ⑤ Is there a gasification process tech that is not considered by the applicant, other than the B.F. & Mitsubishi refractories? Would this tech use less or more coal in the process?

Thanks!
