Attention Of
Jennifer JenningsHECA Project -
Public Scoping Meeting for EIS Commission

Mr. Pozzuto,

PUBLIC SCOPING MEETING COMMENT FORM

Must be received on or before July 27, 2012
(Please print clearly)

DOCKETED

08-AFC-0A

JN # 10351
JUL 26 2012

I believe I have a feasible, workable solution to the problem that concerns the (HECA PROJECT) at the Buttonwillow-Tupman-Palm Farm site! Most of the residents of Tupman are not wealthy, they are good people that mostly never had much.

So, why don't you (HECA) come up with a equitable figure to pay each property owner; that would be a tax free monetary agreement! I have read the documents using the "IMPLAN" structure for the financial forecast of the (HECA) project. It stands to make "BILLIONS", so, why can't you spend a few million to obtain the land in TUPMAN? There are only about 80 or so property owners in TUPMAN. Then you bulldoze the area and you are right on RIK HILLS OIL reserve and "OXY". Plus, you don't have to cross over the Aquaduct or burrow under it. Etc.

Continued or reverse

P.S.
This is Copies of a letter
I sent to Mr. Pozzuto!

I wanted you to have them too!
I truly feel that "HECA-PLANT" is going to kill people!

- 2 -

No people to worry about, possible accidents or survivors suing the company. You own it all.

The farmer's get to keep their land, and it is beautiful farm land; and they continue farming for the food we all need.

And we move on to greener pastures and hopefully never have to meet this type of situation again.

Granted we are somewhat rough around the edges; but we are not totally stupid.

In case you are laughing or cussing at me right now, I want you to know that I am very serious pertaining to the contents of this letter.

Thank You,

Sarah E. Goatcher

PO Box 37

Please fold here and tape before sending.

Return Address:

Sarah Goatcher
PO Box 37
Tupman, CA 93276-0037

P.S. Also, if this plant "HECA" does come into reality. I consider everyone in TUPMAN, as an endangered SPECIES. The fumes from ANHYDROUS AMMONIA ARE DEADLY!

Our prevailing Wind Comes From That Direction of the HECA-SITE!
