Mr. Gerardo Rios – via email (R9AirPermits_sc@epa.gov)
USEPA Region IX, Mail Stop AIR-3
75 Hawthorne
San Francisco, CA 94105

Subject: Preliminary Determination of Compliance (PDOC) for Palen Solar Electric Generation Station, (Facility ID# 174021) , to be located at Corn Spring Road, Desert Center, CA 92239 (09-AFC-07)

Dear Mr. Rios:

The South Coast Air Quality Management District (SCAQMD) has received and reviewed permit applications for the subject solar electric generation project. Palen Solar Electric Generation Station (PSEGS) is proposing to install and operate a 500 megawatt (MW) solar electric generation power plant located at Corn Springs Road, Desert Center, CA 92239. This power plant will operate annually on a continuous basis.

Based on the emission potential, this project is subject to the public notice requirements of SCAQMD Rules 212 (Standards for Approving Permits) and 3006 (Title V), and has applied for a significant permit revision under the Title V regulation. Therefore, this project is subject to a 45-day EPA review and a 30-day public notice period under SCAQMD Rules 212, 3003, and 3006.

The SCAQMD has evaluated the subject permit applications and made a preliminary determination that the equipment will comply with all of the applicable requirements of our rules and regulations. We intend to take final action on the permit at (1) the end of the 30-day public comment and review period and after all pertinent comments have been considered, and (2) upon receiving and consideration of EPA comments on the initial Title V Facility Permit.

Please find enclosed SCAQMD's PDOC analyses, the draft Title V Facility Permit to Construct and the public notice for the subject project issued in accordance with SCAQMD Rules 212 and 3006. The public notice provides for a 30-day public comment period and a 45-day EPA review period prior to making a final decision on issuance of the permit. The public notice is also being published in a newspaper of

general circulation in the vicinity of the project, and it is also being forwarded to other interested parties. Upon completion of the public comment and EPA review periods, SCAQMD will evaluate the comments received during the comment period prior to issuance of any Final Determination of Compliance (FDOC).

If you wish to provide comments or have any questions regarding this project, please contact Mr. Roy Olivares at (909) 396-2208/ rolivares@aqmd.gov or Mr. John Yee at (909) 396-2531/ jyee@aqmd.gov.

Sincerely,

NOTICE OF INTENT TO ISSUE PERMIT PURSUANT TO AQMD RULES 212 AND 3006

This notice is to inform you that the South Coast Air Quality Management District (SCAQMD) has received and reviewed permit applications for the proposed Palen Solar Electric Generating Station (PSEGS) power plant project and intends to issue a Title V Facility Permit at the end of the 30-day public and 45-day U.S. Environmental Protection Agency review and comment period and after all pertinent comments have been considered.

The SCAQMD is the air pollution control agency for the four county-region including Orange County and parts of Los Angeles, Riverside and San Bernardino counties. Anyone wishing to install or modify equipment that could control or be a source of air pollution within this region must first obtain a permit from the SCAQMD. Under certain circumstances, before a permit is granted, a public notice, such as this, is prepared by the SCAQMD and distributed.

The SCAQMD has evaluated the permit applications listed below for the following facility and made a preliminary determination that the project meets or will meet all applicable SCAQMD rules and regulations for the issuance of a Proposed Title V Permit based upon the evaluation described below:

549399	RECLAIM/Title V application

PROJECT DESCRIPTION

The project consists of construction and operation of a new power plant with the capability of generating a total of 500 megawatts (MW) of electrical power consisting of two (2) new, 249 MMBtu/hr natural gas fired boilers with associated air pollution control systems, two (2), 10.5 MMBtu/hr natural gas fired boilers, two (2) 3363 brake horsepower diesel fuel fired emergency engines driving electrical generators, one (1) 398 brake horsepower diesel

fuel fired emergency engines driving electrical a generator, three (3) 617 brake horsepower diesel fueled emergency engines driving fire pumps. Since the above equipment has the potential to emit pollutants in excess of the emission levels specified in SCAQMD Rule 212(g), a public notice is required.

PROJECTED EMISSIONS

After the initial commissioning period, the total maximum monthly emissions from the operation of the proposed equipment in conjunction with the use of air pollution control systems is not expected to exceed the following:

Pollutant	Maximum Monthly Emissions, (pounds per month)
Nitrogen Oxides (NOx)	1666
Carbon Monoxide (CO)	3,802
Volatile Organic Compounds (VOC)	586
Particulate Matter (diameter less than 10 microns) (PM10)	517
Particulate Matter (diameter less than 2.5 microns) (PM2.5)	517
Sulfur Dioxide (SOx)	189
Ammonia	128

As a result of the burning of natural gas in the boilers and diesel fuel from the emergency engines, emissions from the proposed project also contains some pollutants that are considered toxic under SCAQMD Rule 1401-New Source Review of Toxic Air Contaminants. Therefore, a health risk assessment was performed for this project. The health risk assessment uses health protective assumptions in estimating actual risk to an individual person. Even assuming this health protective condition, the evaluation shows that the Maximum Individual Cancer Risk (MICR) increase from each equipment is less than one-in-one-million and for the project is less than one-in-ten-million. Also, acute and chronic hazard indices (HIA and HIC, respectively), which measure non-cancer health impacts, are less than one. These levels of estimated risk are below the threshold limits of SCAQMD Rule 1401 (d) established for new or modified sources.

This facility is a new Federal Title V and Title IV (Acid Rain) facility. Pursuant to SCAQMD Title V Permits Rule 3006 – Public Participation, any person may request a proposed permit hearing on an application for an Initial Title V, a Permit Renewal or significant permit revision by filing with the Executive Officer a complete Hearing Request Form (Form 500G) for a proposed hearing within 15 days of the date of publication of this notice, as shown below. This form is available on the SCAQMD website at <http://www.aqmd.gov/permit/Formspdf/TitleV/AQMDForm500-G.pdf>, or alternatively, the form can be made available upon request by contacting Mr. Roy Olivares at the e-mail and telephone number listed below. On or before the date the request is filed, the person requesting a proposed permit hearing must also send by first class a copy of the request to the facility address and contact person listed above.

The proposed permit and other information are available for public review at the SCAQMD’s headquarters in Diamond Bar, and at the Lake Tamarisk Public Library, 43-880 Lake Tamarisk Drive, Desert Center, CA 92239. Additional information including the facility owner's compliance history submitted to the SCAQMD pursuant to Section 42336, or otherwise known to the SCAQMD, based on credible information, is available at the SCAQMD for public review by contacting Mr. Roy Olivares (rolivares@aqmd.gov), Engineering and Compliance, South Coast Air Quality Management District, 21865 Copley Drive, Diamond Bar, CA 91765-4182, (909) 396-2208. A copy of the draft Permit to Construct, notice and evaluation can also be viewed at <http://www3.aqmd.gov/webappl/publicnotices2/> Anyone wishing to comment on the air quality elements of this permit must submit comments in writing to the SCAQMD at the above address, attention Mr. Andrew Y. Lee. **Comments must be received within 30 days of the distribution/publication date of this notice, as shown below.** If you are concerned primarily about zoning decisions and the process by which the facility has been sited in this location, please contact your local city or county planning department or the California Energy Commission at (916) 654-4640. For your general information, anyone experiencing air quality problems such as dust or odor can telephone in a complaint to the SCAQMD 24 hours a day by calling 1-800-CUT-SMOG (1-800-288-7664).

Oakland, CA 94612

Subject: Palen Solar Electric Generation Station, Facility ID# 174021 , Location:
Corn Spring Road, Desert Center, CA 92239 (09-AFC-07)

Dear Mr. Turlinski:

The South Coast Air Quality Management District (SCAQMD) has completed the review of your applications for permits to construct for the above referenced project. Our preliminary engineering review of the proposed project shows that it complies with all applicable Rules and Regulations of the SCAQMD. Prior to the issuance of the permits to construct, the attached public notice must be distributed in accordance with SCAQMD requirements.

The public notice requirements specified in SCAQMD Rule 212 apply to this project because the emissions from the new power plant will exceed the threshold specified in Rule 212(g). This rule requires a 30-day public notice period prior to issuance of the final permit. As part of this public notice requirement, Rule 212(d) requires that the public notice must be distributed by the applicant to each address within a ¼ mile radius of the project, and that the applicant must provide verification to the Executive Officer that the public notice has been distributed. In addition to these requirements, you also need to provide us with a description of the method used to determine the addresses within the ¼-mile radius of the project. The notice will also be published (by SCAQMD) in a daily newspaper in the vicinity of your facility, and distributed to other interested parties as required by the referenced rule.

Enclosed is the public notice you are required to distribute to each address within a ¼-mile radius of the project. **PRIOR TO COPYING AND DISTRIBUTING THE NOTICE, PLEASE FILL IN THE DATE THAT THE NOTICE WILL ACTUALLY BE DISTRIBUTED AT THE BOTTOM OF THE NOTICE, AND SEND A DATED COPY TO THE AQMD.**

Written verification referencing your application numbers, proof of distribution, and the method of determining the addresses must be forwarded to us. Proof of distribution shall include post office receipts, receipts from mail service or distribution service agencies, or other methods approved by the AQMD, describing boundaries of notification and addresses included in the mailing. All correspondence regarding this notice must be forwarded to the SCAQMD, 21865 Copley Drive, Diamond Bar, CA 91765-4182, Attention: Mr. Roy Olivares.

The SCAQMD files pertaining to the subject equipment will be available for public viewing at the SCAQMD's Diamond Bar office. The draft permit and our permit evaluation will also be available at the Lake Tamarisk Public Library, 43-880 Lake Tamarisk Drive, Desert Center, CA 92239 during the public notice period.

Subject: Preliminary Determination of Compliance (PDOC) for Palen Solar Electric Generation Station, (Facility ID# 174021) , to be located at Corn Spring Road, Desert Center, CA 92239 (09-AFC-07)

Dear Ms. Stora:

The South Coast Air Quality Management District (SCAQMD) has received and reviewed permit applications for the subject solar electric generation project. Palen Solar Electric Generation Station (PSEGS) is proposing to install and operate a 500 megawatt (MW) solar electric generation power plant located at Corn Springs Road, Desert Center, CA 92239. This power plant will operate annually on an continuous basis.

Based on the emission potential, this project is subject to the public notice requirements of SCAQMD Rules 212 (Standards for Approving Permits) and 3006 (Title V), and has applied for a new Title V Permit under the Title V regulation. Therefore, this project is subject to a 45-day EPA review and a 30-day public notice period under SCAQMD Rules 212, 3003, and 3006.

The SCAQMD has evaluated the subject permit applications and made a preliminary determination that the equipment will comply with all of the applicable requirements of our rules and regulations. We intend to take final action on the permit at (1) the end of the 30-day public comment and review period and after all pertinent comments have been considered, and (2) upon receiving and consideration of EPA comments on the initial Title V Facility Permit.

Please find enclosed SCAQMD's PDOC analyses, the draft Title V Facility Permit to Construct and the public notice for the subject project issued in accordance with SCAQMD Rules 212 and 3006. The public notice provides for a 30-day public comment period and a 45-day EPA review period prior to making a final decision on issuance of the permit. The public notice is also being published in a newspaper of

general circulation in the vicinity of the project, and it is also being forwarded to other interested parties. Upon completion of the public comment and EPA review periods, SCAQMD will evaluate the comments received during the comment period prior to issuance of any Final Determination of Compliance (FDOC).

If you wish to provide comments or have any questions regarding this project, please contact Mr. Roy Olivares at (909) 396-2208/ rolivares@aqmd.gov or Mr. John Yee at (909) 396-2531/ jyee@aqmd.gov.

Subject: Preliminary Determination of Compliance (PDOC) for Palen Solar Electric Generation Station, (Facility ID# 174021), to be located at Corn Spring Road, Desert Center, CA 92239 (09-AFC-07)

Dear Mr. Notar:

The South Coast Air Quality Management District (SCAQMD) has received and reviewed permit applications for the subject solar electric generation project. Palen Solar Electric Generation Station (PSEGS) is proposing to install and operate a 500 megawatt (MW) solar electric generation power plant located at Corn Springs Road, Desert Center, CA 92239. This power plant will operate annually on a continuous basis.

Based on the emission potential, this project is subject to the public notice requirements of SCAQMD Rules 212 (Standards for Approving Permits) and 3006 (Title V), and has applied for a new Title V Permit under the Title V regulation. Therefore, this project is subject to a 45-day EPA review and a 30-day public notice period under SCAQMD Rules 212, 3003, and 3006.

The SCAQMD has evaluated the subject permit applications and made a preliminary determination that the equipment will comply with all of the applicable requirements of our rules and regulations. We intend to take final action on the permit at (1) the end of the 30-day public comment and review period and after all pertinent comments have been considered, and (2) upon receiving and consideration of EPA comments on the initial Title V Facility Permit.

Please find enclosed SCAQMD's PDOC analyses, the draft Title V Facility Permit to Construct and the public notice for the subject project issued in accordance with SCAQMD Rules 212 and 3006. The public notice provides for a 30-day public comment period and a 45-day EPA review period prior to making a final decision on issuance of the permit. The public notice is also being published in a newspaper of

general circulation in the vicinity of the project, and it is also being forwarded to other interested parties. Upon completion of the public comment and EPA review periods, SCAQMD will evaluate the comments received during the comment period prior to issuance of any Final Determination of Compliance (FDOC).

If you wish to provide comments or have any questions regarding this project, please contact Mr. Roy Olivares at (909) 396-2208/ rolivares@aqmd.gov or Mr. John Yee at (909) 396-2531/ jyee@aqmd.gov.

A handwritten signature in black ink that reads "Brad".

The South Coast Air Quality Management District (SCAQMD) has received and reviewed permit applications for the subject solar electric generation project. Palen Solar Electric Generation Station (PSEGS) is proposing to install and operate a 500 megawatt (MW) solar electric generation power plant located at Corn Springs Road, Desert Center, CA 92239. This power plant will operate annually on a continuous basis.

Based on the emission potential, this project is subject to the public notice requirements of SCAQMD Rules 212 (Standards for Approving Permits) and 3006 (Title V), and has applied for a significant permit revision under the Title V regulation. Therefore, this project is subject to a 45-day EPA review and a 30-day public notice period under SCAQMD Rules 212, 3003, and 3006.

The SCAQMD has evaluated the subject permit applications and made a preliminary determination that the equipment will comply with all of the applicable requirements of our rules and regulations. We intend to take final action on the permit at (1) the end of the 30-day public comment and review period and after all pertinent comments have been considered, and (2) upon receiving and consideration of EPA comments on the initial Title V Facility Permit.

Please find enclosed SCAQMD's PDOC analyses, the draft Title V Facility Permit to Construct and the public notice for the subject project issued in accordance with SCAQMD Rules 212 and 3006. The public notice provides for a 30-day public comment period and a 45-day EPA review period prior to making a final decision on issuance of the permit. The public notice is also being published in a newspaper of

general circulation in the vicinity of the project, and it is also being forwarded to other interested parties. Upon completion of the public comment and EPA review periods, SCAQMD will evaluate the comments received during the comment period prior to issuance of any Final Determination of Compliance (FDOC).

If you wish to provide comments or have any questions regarding this project, please contact Mr. Roy Olivares at (909) 396-2208/ rolivares@aqmd.gov or Mr. John Yee at (909) 396-2531/ jyee@aqmd.gov.
