Bill,

At the CPV Sentinel Energy Project workshop held on November 14, 2007, Joe Loyer asked about the expected date for issuance of the PDOC. Mike Carroll spoke with the SCAQMD about this issue. The SCAQMD estimates that the PDOC for the project will not be issued before the end of this year, but likely will be issued in the beginning of 2008.

During the workshop, Dorothy Torres asked about whether there would be disturbance to areas that were inaccessible during our archaeological resources surveys (shown on AFC Figure 7.3-5). The proposed project will not need to access the areas which were inaccessible during our surveys. Any fences which currently block access to these areas will be left in place. These inaccessible areas will not be used for construction staging nor will they be disturbed during construction.

Please let me know if you have any additional questions.
