**NOTICE OF AVAILABILITY**  
**FINAL STAFF ASSESSMENT AIR QUALITY ADDENDUM FOR THE PROPOSED**  
**CPV SENTINEL PROJECT (07-AFC-3)**

This notice is to inform you of the availability of the Final Staff Assessment Air Quality Addendum (FSA Addendum) for the CPV Sentinel project Application for Certification (07-AFC-3). This FSA Addendum contains the California Energy Commission staff's updated analysis of air quality for the applicant's (CPV Sentinel, LLC's) CPV Sentinel Energy Project (CPV Sentinel) Application for Certification (07-AFC-3). At the time the FSA was published on October 10, 2008, staff's assessment was incomplete in the area of air quality because the applicant had not yet secured the Emission Reduction Credits (ERCs) needed to offset the project's emissions. Since then, the applicant has secured the necessary ERCs and staff is able to update its analysis and draw conclusions as to the project's conformity with air quality laws, ordinances, regulations and standards (LORS) and whether environmental impacts are avoided or mitigated to less than significant levels. The FSA Addendum has been prepared in conformity with the Energy Commission's California Environmental Quality Act (CEQA) review process. The Energy Commission's CPV Sentinel Committee will hear the various parties' views on this FSA Addendum and the topic of Air Quality in an Evidentiary Hearing scheduled for July 19, 2010. The hearing will be noticed separately and the public and agencies are welcome to offer comments either in-person or by phone.

**Summary of the California Energy Commission Staff's Conclusions**

Staff has concluded that with the applicant's and staff's proposed mitigation measures and staff's proposed conditions of certification, the CPV Sentinel project would not cause any significant adverse direct, indirect or cumulative impacts and would comply with all applicable laws, ordinances, regulations, and standards (LORS). For a more detailed review of potential impacts in technical areas other than air quality, please see staff's technical analyses in the previously published FSA at the website listed below.

If you desire information on technical or project schedule issues, or how to participate in the Energy Commission's review of the project, your questions should be directed to John Kessler, Energy Commission Project Manager, at (916) 654-4679 or at [jkessler@energy.state.ca.us](mailto:jkessler@energy.state.ca.us). The status of the project, an electronic copy of the AFC, copies of notices, the FSA Addendum and other relevant documents are also available on the Energy Commission's web site at <http://www.energy.ca.gov/sitingcases/sentinel/index.html>.

Sincerely,

---
