Data Requests

Supplemental information for NPR-1 is required to complete the evaluation of the resources discussed above. This may be submitted as part of the data response to Data Request Number A85.

A189 Provide documentation of the existing military sites (trenches, bunkers and defensive earthworks) found on the north and west flanks of the NPR-1 site. Documentation shall include survey and inventory, evaluation of significance and integrity for both the CRHR and NRHP. Prepare a context statement and record the findings on the appropriate DPR 523 forms.

Response:

Attached are two Department of Parks and Recreation records documenting the military sites described in Data Request A189. Record numbers CA-KER-5397 (P-15-006772), and CA-KER-3171/H (P-15-003171) were obtained through the literature search in response to CEC Data Request A85. All records obtained through the literature search will be submitted under Data Response A85. The military sites referenced above were not located in the Project areas recently surveyed for the first three (3) years of project construction and operation.

A190 Provide documentation of the existing check dams found throughout the drainage draws, gullies and washes on the NPR-1 site. Documentation shall include survey and inventory, evaluation of significance and integrity for both the CRHR and NRHP. Prepare a context statement and record the findings on the appropriate DPR 523 forms.

Response:

At the request of the CEC, OEHI conducted a literature search for records of check dams within all future proposed CO2 Project areas. One Record number was found, CA-KER-3226H (P-15-003226), however the site is more than one-mile from the project area. The record describes an earthen berm in an artificially created basin located in Section 1G which is not in the Project area and will not be impacted by the Project. No records were found pertaining specifically to check dams.
