November 6, 2013

Dear Librarian:

DOCUMENT HANDLING FOR THE FINAL STAFF ASSESSMENT–PART C FOR THE PROPOSED PALEN SOLAR ELECTRIC GENERATING SYSTEM (09-AFC-7C) and POSTING OF PUBLIC NOTICE

The enclosed Final Staff Assessment-Part C (FSA) contains the California Energy Commission (Energy Commission) staff's final Air Quality evaluation of the Palen Solar Electric Generating System (PSEGS), proposed to be located in the county of Riverside.

The FSA-Part A was published on September 10, 2013 and contains the Project Description; Biological Resources; Hazardous Materials Management; Land Use; Noise and Vibration; Public Health; Socioeconomics; Soil and Water Resources; Traffic and Transportation; Transmission Line Safety and Nuisance; Visual Resources; Waste Management; Worker Safety and Fire Protection; Facility Design; Geology and Paleontology; Power Plant Efficiency; Power Plant Reliability; and Transmission System Engineering.

The FSA-Part B, which was published on September 23, 2013, contains Energy Commission staff's independent, objective, final cultural resources evaluation of the proposed PSEGS, based on the information provided by the applicant, government agencies, tribes, interested parties and other sources available at the time the FSA was prepared.

Please make the FSA-Part C available for those who may wish to be informed about the project. We request that you not allow the FSA-Part C or any of its contents to be removed from the library. To increase accessibility of the document, we ask, if possible, that you cross-reference it as a general reference work under the title and author categories, as well as under such subjects as "Energy Commission," "electricity/energy generation," "power plant siting," or any other relevant subject. Please retain the enclosed letter to the public behind the front cover of the FSA-Part C.

The Energy Commission's siting process is open to the public and incorporates the input of the public as well as local, state, and federal agencies and tribes. To facilitate public participation in our review process, the Commission distributes copies of staff documents such as this FSA to public libraries in communities near proposed projects, and in major cities throughout the state. To assist the Energy Commission in this effort, please retain a copy of the enclosed Notice of Availability behind the front cover of the FSA-Part C and also post a copy of the Notice of Availability in a place conspicuous and accessible to those members of the general public who visit the library.

Thank you for your cooperation. If you have any questions, please contact Christine Stora, Compliance Project Manager, at (916) 654-4745, or by e-mail at: Christine.Stora@energy.ca.gov.

Sincerely,

Chris Marxen, Compliance Office Manager
Siting, Transmission and Environmental
Protection Division
