Dear Chairperson Pfannenstiel,

I just wanted to let you know how much I appreciate your time and commitment during the recent workshop and hearing process. I am personally very grateful for your patience and understanding as I work my way through the process for the first time. I also appreciate the time and effort you, Commissioner Boyd and Commission Staff have taken with our residents and businesses in your three trips to Chula Vista and the additional trips made by CEC Staff and others. While local citizens may not always agree with the Commission or City Staff, I know that your local presence and willingness to listen makes a difference with the community and our ability as local officials to build on our community strengthening process. Thank you again for all the assistance the Commission has provided to help our City move forward on our vision of an economically and environmentally sustainable energy future.

Sincerely,

Scott Tulloch
Interim City Manager
