Dear Mr. Johnson:

Re: Request for Agency Participation in the Review of Additional Information for the Starwood Power Project Application for Certification (06-AFC-10)

Thank you for inviting the Native American Heritage Commission to comment on the the above-referenced application/project. We did respond to the project and sent advisory letters accompanied by a list of Native American contacts on December 14, 2006 and January 29, 2007 to Beverly E. Bastian at the Energy Commission. The purpose of the list is to provide opportunities for nearby Native American tribes to comment on the proposed project; it remains valid for revisions to the project where tribal consultation would be appropriate.

Thank you again.

Sincerely,

Dave Singleton
Program Analyst
