<b>WITH:</b>	Rich Weiss with Starwood Power –Midway LLC (Applicant)				
<b>SUBJECT:</b>	Supplemental information regarding agricultural filter backwash pond				

**COMMENTS:** The applicant is evaluating the agricultural filter backwash as an alternate water supply but would not be able to provide complete information until mid October. I informed him that this would very likely delay publication of the Final Staff Assessment but that I couldn't provide a definitive time frame until we'd reviewed the supplemental information.

The applicant was adamant that they'd prefer to move forward with the project and FSA as it currently exists rather than risk delaying the FSA and subsequent committee hearings. The applicant understands that without that information staff could not analyze it or make a recommendation for or against this alternate water supply.
