Dear Mr. Singleton,

**PROPOSED NEW POWER PLANT IN EASTERN SAN BERNARDINO COUNTY**

The California Energy Commission has received an application for a permit to build a new solar power plant, in eastern San Bernardino County. The project site is located in:

T16N R14E, Sections 2, 3, 4, 10, and 11, and  
T17N R14E, Sections 20, 21, 27, 28, 29, 33, and 34.

Please see accompanying map, which encompasses parts of the Clark Mountain and Ivanpah Lake USGS quadrangle maps.

A portion of the Energy Commission's permitting process involves notifying citizens and addressing their concerns. We anticipate holding public workshops and hearings in the future, and we would like to notify representatives of the Native American community concerning the time and place of these public workshops. To help us do this, please provide (by fax, if possible) a current list of representatives of the Native American community who have traditional ties to eastern San Bernardino County and wish to be contacted concerning development activities there. We do not need any information concerning the location of sacred sites.

Please fax the list to: Beverly E. Bastian at (916) 651-8868.

Your timely response will be much appreciated. If you have any questions, please call me at (916) 654-4840. Thank you for your time.

Sincerely,

Beverly E. Bastian
