RE: The Ivanpah Solar Electric Generating System-07-AFC-05  
Application for Confidential Designation: System Impact Study

Dear Ms. Jones:

It has come to our attention that the Application for Confidential Designation for the System Impact Study submitted on September 18, 2008 was rejected as it contains an electronic signature. I am now submitting 12 copies of our cover letter and application with an original signature. Please contact me if you need additional information. Thank you.

Sincerely,

A large, bold, black handwritten signature that is highly stylized and somewhat illegible. It consists of several overlapping loops and a long horizontal stroke at the end.

Jeffery D. Harris

**APPLICATION FOR CONFIDENTIAL DESIGNATION**  
**Ivanpah Solar Electric Generating System 07-AFC-05**  
**Solar Partners I, LLC, Solar Partners II, LLC, Solar Partners VIII, LLC, and Solar**  
**Partners IV, LLC (the “Applicant”)**

**System Impact Study (“SIS”)**

1. *Specifically indicate those parts of the record which should be kept confidential.*

The entirety of “Interconnection System Impact Study”, including the cover letter and attachments (the “SIS”), for DPT2 Power Project, dated August 28, 2008. This SIS has been completed by the California Independent System Operator (the “CAISO”) in coordination with Southern California Edison per the CAISO’s Large Generator Interconnection Procedure.

2. *State the length of time the record should be kept confidential, and provide justification for the length of time.*

Consistent with applicable law, this information should be held confidential indefinitely in order to protect the information identified therein.

3. *Cite and discuss (i) the provisions of the Public Records Act or other law which allow the commission to keep the record confidential and (ii) the public interest in nondisclosure of the record.*

It has been suggested to the Applicant that the SIS may not be disclosed due to restrictions and/or prohibitions set forth in the Critical Infrastructure Information Act of 2002 (“CIIA”), codified at 6 U.S.C. §§131 – 134 on November 25, 2002 as subtitle B of Title II of the Homeland Security Act (P.L. 107-296, 116 Stat. 2135, sections 211 - 215), related to the regulation of the use and disclosure of information submitted to the Department of Homeland Security (DHS) about vulnerabilities and threats to critical infrastructure. Further, there may be prohibitions of the use or disclosure of this information in the CAISO Tariff, including, but not necessarily limited to, Appendix U of the *California Independent System Operator Corporation FERC Electric Tariff*, the Standard Large Generator Interconnection Procedures (the “LGIP”). In particular, the LGIP’s definition of “Confidential Information” in Section 1.2.2 and the LGIP’s Section 13.1 on “Confidentiality,” and the subsections thereto, may include prohibitions on the use or disclosure of this information.

4. *State whether the information may be disclosed if it is aggregated with other information or masked to conceal certain portions, and if so the degree of aggregation or masking required.*

The Applicant considered whether it would be possible to aggregate or mask the information. However, no feasible method of aggregating or masking the information

could be identified that would not either disclose the information or render the information provided useless.

5. *State whether and how the information is kept confidential by the applicant and whether it has ever been disclosed to a person other than an employee of the applicant, and if so under what circumstances.*

Applicant has not disclosed any of the subject information to anyone other than its employees, attorneys and consultants working on the Applicant's project and parties considering providing financing or equity participation to Applicant as allowed by the LGIP 13.1.2. Moreover, this information has not been disclosed to such persons except on a "need-to-know" basis.

*I certify under penalty of perjury that the information contained in this Application for Confidential Designation is true, correct, and complete to the best of my knowledge and belief. I am authorized to make the Application and Certification on behalf of Applicant.*

Dated: September 18, 2008
