DOCKET
07-AFC-5

DATE	JAN 15 2009
RECD.	JAN 15 2009

To the Parties in the Ivanpah Proceeding (07-AFC-5)

Energy Commission Staff has requested an extension of the deadline to file status reports from the current January 16 date until Friday, January 23. In light of the January 15 e-mail from Tom Hurshman (BLM) to the applicant requesting confirmation of dates for delivery of various studies, some which are prerequisites to the publication of a Final Staff Assessment/Draft Environmental Impact Statement, it appears that the Committee, parties and public would be well-served by granting the extension so that the Applicant and Staff can inform us of the response to Mr. Hurshman's e-mail and the likely effect on the current Committee Schedule for this case.

The status reports following those filed next week will continue to follow the most recent Committee Schedule and will be due six weeks from the original deadline or five weeks from the extended deadline, on February 27, 2009 and then every six weeks thereafter.
