Re: IVANPAH SOLAR ELECTRIC GENERATING SYSTEM

(Docket Number 07-AFC-5)

To whom it may concern,

I am writing as a concerned member of a integrated physical science 101 class at Saint Leo University in Florida. We studied the proposal in class, and I personally question your rationale in approving the Ivanpah Solar Electric Generating System (ISEGS) project. The project, even with the mitigation measures described in the Decision Report, will have remaining significant impacts on the environment that outweigh the benefits. Therefore, I believe that in order to protect the life in this region, the ISEGS project should be moved to a different location.

Sincerely yours,

Sarah Eade
