Sunday, November 30, 2008

Dear Mr. Moore:

My name is Andrew Howard, a resident of Carlsbad, California. I am writing to you to give you my view on the power plant location problem in the City of Carlsbad.

After reading the newspaper, I knew that we needed a new power plant because the existing one is becoming too old. I also knew that the city does not want to leave it on the coast because of its negative effect on tourism. The city wants to relocate the power plant to another location which is near the city airport. This location has caused much concern. On the other hand, the NRG Energy Company wants to leave it on the coast, rather than move it near Palomar Airport. Moving the power plant near the airport would be a bad move, for it would result in potential crashes, because the tall columns would be an obstacle for pilots, and the hot exhaust would cause turbulence for the pilots attempting to land, or take off. This is a big safety issue.

My solution is to leave the power plant where it is. If you move the power plant near the airport, peoples lives will be endanger, but if you leave the power plant at it's present location, it will have minimum impact, but will be safer than up near the airport. Also, safety is more important than tourism.

Thank you for reading my letter. If you would like to contact me, my address is 4290 Clearview Dr. Carlsbad CA, 92008, and my home phone number is 1(760) 720-9488.

Andrew Howard
