Subject: Addendum to Comments on Proposed Solar Millennium Ridgecrest Solar Power Project
Attachments: MJM_letter_to_CEC_WoPhoto.pdf

Dear Mr. Solorio and Ms. Eubanks,

I am resending my letter separately from the photograph and map since the BLM has an arbitrarily low file limitation on the e-mail they will accept. Both the photograph and the map are important additions to the record that should be considered in determining whether to amend the West Mojave Plan and grant the right of way for the proposed project.

The materials presented at the public hearing in Ridgecrest did not include a map showing the close proximity of the project to a wilderness area. The project which will denude 3 square miles of desert habitat is less than 3 miles from the El Paso Wilderness Area. The absence of the wilderness area from the maps shown at the public hearing and from the handouts is egregious.

I want to have this e-mail letter included in the record along with my photograph of the area and the map showing the El Paso Wilderness Area. I also want to include the following Mai Delivery message I received back.
