RE: Ridgecrest Solar Power Project - BLM Serial Number: CACA – 49016; AFC - Docket No. 09-AFC-9

Dear Mr. Villalobos, Mr. Solorio and Ms. Vaccaro:

Solar Millennium would like to amend its request of June 30th. We previously requested a "suspension" of our application for the Ridgecrest Solar Project. Some people have interpreted the word "suspension" to mean "complete halt to all activities." That is not our intent. In order to avoid confusion, we believe it best to withdraw our request for a "suspension" and instead request a modification of AFC and POD milestones to allow for the intensive biological study that is necessary for this site. Solar Millennium will continue a selected number of actions, principally the Mojave Ground Squirrel (MGS) biology connectivity study. The project has met a number of approval milestones and the agencies have undertaken considerable analysis and produced draft environmental documents. Our request and plan is to continue to achieve POD and AFC milestones, and maintain an active SF-299 application, as the biological data becomes available.

Solar Millennium requests the opportunity to meet with staff to address future milestones and scope of the proposed MGS study.

Your attention to this matter is appreciated.

Sincerely,

James H Caldwell, Jr.
President
