California Energy Coommission

Ladies and Gentlemen:

Here are my comments, these are comments that you may not want to hear, but you asked me...

Disappointment, is what I feel now, for I had lots of trust and faith in my California.

California a respected state within the United States and the world, respected because of our standards in environment, air quality, water, food labels, strict emission rules on cars sold in our state, child protection, employee protection, the list is unending. California is a state that put people first. California cares.

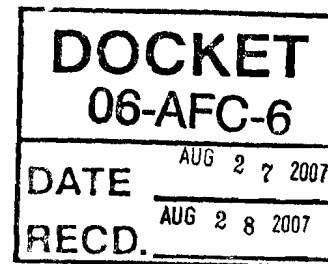

But, in our situation, according to your staff report on airport hazard, the proposed power plants Russel and East Shore will be encroaching the limited air space at the Hayward airport with the possibility of an accident, even a remote one is a risk. Our safety is going to bu put aside in exchange for money, money offered if the plants get approval, as was said at the Alameda County hearing on August 15. This choosing of revenues over people safety does not follow our caring reputation.

Let's stop and observe the area between Winton Ave. and A Street. It is all new, beautiful and crowded. A new Target store and many other small stores; a new restaurant being built at the opposite corner of Target; across the street we have a remodeled shopping corner with a new supermarket; at the other corner we have Walgreens; Kennedy park on weekends is always packed; Skywest townhomes are behind the park, the golf course; and *I almost forgot, Home depot and St. Joachim church.*

*There are lots of people in the area, do you see them? I do, a conglomeration of people, residents, shoppers, children at play, or families praying at the church. Why is it that the commissioners fail to see them? Why our city of Hayward Community and Developement fails to see them either. Why the Commissioners and the City of Hayward leaders put more weight on the millions offered by the power plants? than to the safety of the people, young and old.*

*This is why ladies and gentlemen, I am very disappointed.*

Juanita Gutierrez
