RE: Ridgecrest Solar Power Project 09-AFC 9-

Sirs:

On January 25, 2011, Solar Millennium filed a Withdrawal of Application for the Ridgecrest Solar Power Project. Word of mouth says that the Withdrawal of the Application was not accepted on technical grounds. Yet there is nothing posted on the CEC website indicating any decision or correspondence on this matter. Under the California Public Records Act, I am requesting a copy of all letters, emails, transcripts of telephone conversation, and any other information regarding a response to the Withdrawal of Application including the rationale for the outcome.

Please send the information to me at my address located in the heading. Thank you.

Sincerely,

Penelope LePome
