Subject: RE: Applicant's witnesses on socioeconomics and environmental justice CH030-032
Attachments: Exhibit 21.pdf

Ms Schulkind – the declaration for Fatuma Usuf you are looking for can be found on the disk under Exhibit 21, at pages 22 and 23. I have attached a copy of the Exhibit 21 taken from the disk for your ease of reference. Tom Priestly is our visual resources expert who also will provide rebuttal testimony on property values. His declaration on visual resources is at pages 30-32 of Exhibit 21. We did not receive any questions about impacts on property values during the proceeding prior to now. Therefore, we have no new affirmative testimony on that issue.

Regards,

Jane

Subject: RE: Applicant's witnesses on socioeconomics and environmental justice CH030-032

Dear Ms. Luckhardt:

I have two questions regarding East Shore Energy Center's Updated Exhibit List and Witness List, dated 12/7, as it pertains to socioeconomics and environmental justice:

First, on page 12 it lists Stain, Scholl, Yusuf and Priestly as witnesses on these topics, and indicates that their testimony is presented through declaration. I do not see the declarations on the disc you provided. Please advise where these declarations are located.

Second, regarding this same disclosure, it indicates that Ms. Yusuf and Mr. Priestly will be available for "rebuttal" if necessary. Am I correct in understanding that they will also be available for cross? The District will expect the opportunity to cross any witness whose testimony is presented, through declaration or otherwise, regarding environmental justice and/or socioeconomic impacts on schools.

Sincerely,

Laura Schulkind

Name and Title

DAVID A. STEIN
VKE PRESIDENT
PROJECT MANAGER - EASTSHORE

Executive Summary, Introduction, and Project Description

I. Introduction

- A. **Name:** David Stein
- B. **Purpose:** This testimony addresses the Executive Summary, Introduction, Project Description, and Transmission Line Safety and Nuisance issues associated with the Eastshore Energy Center Application for Certification proceeding.
- C. **Qualifications:** David Stein is presently a Vice President at CH2M HILL and has been for the last 2 year. Mr. Stein has Master of Science Degree in Environmental Engineering and has over 20 years of experience working on power projects. David Stein directed the preparation of the Application for Certification petition as well as the post-filing information, data responses, and supplemental filings. A copy of David Stein's qualifications was provided with the Applicant's Pre-hearing Conference Statement, docketed on November 19, 2007.

II. Prior Filings

In addition to the statements herein, this testimony includes by reference the following documents submitted in this proceeding:

- Eastshore Energy Center Application for Certification (Exhibit 1)
- Supplement in Response to Data Adequacy Comments on the Application for Certification for the Eastshore Energy Center (Exhibit 2)
- Eastshore Data Responses Set #1 (Exhibit 6)
- Eastshore Data Responses Set #2 (Exhibit 8)
- Eastshore Data Responses Set #3 (Exhibit 9)
- Supplemental Data Response (March 19, 2007 Workshop Questions 1-17) (Exhibit 12)
- Comments on the Preliminary Staff Assessment (Exhibit 13)

To the best of my knowledge, all of the facts contained in this testimony (including all referenced documents) are true and correct. To the extent this testimony contains opinions, such opinions are my own. I make these statements, and render these opinions freely and under oath for the purpose of constituting sworn testimony in this proceeding.

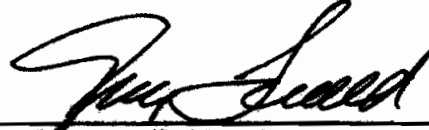

III. Proposed Licensing Conditions

The Staff Assessment for the project filed by the CEC did not include Conditions of Certification for these areas. The Conditions of Certification address applicable federal, state, and local laws, ordinances, regulations, and standards and minimizes the project's impacts. I have reviewed the Conditions of Certification set forth in the Staff Assessment and find the Conditions to be acceptable with the incorporation of the changes proposed in the Applicant's Pre-hearing Conference Statement.

A handwritten signature in black ink, appearing to read "Greg Trewitt", written over a horizontal line.

Gregory D. Trewitt
VP, Development & Engineering
Tierra Energy, LLC

Engineering and Facility Design and Transmission Line Safety and Nuisance

I. Introduction

- A. **Name:** Greg Trewitt
- B. **Purpose:** This testimony addresses Engineering and Facility Design issues associated with the Eastshore Energy Center Application for Certification proceeding.
- C. **Qualifications:** Greg Trewitt is presently employed at Tierra Energy as a Vice President of Development and Engineering and has been for the past 2 years. Mr. Trewitt has Bachelors of Science Degrees in Electrical and Mechanical Engineering and has over 20 years of experience working on power projects. Greg Trewitt directed the preparation of the Engineering and Facility Design sections of the Application for Certification petition as well as the post-filing information, data responses, and supplemental filings. A copy of Greg Trewitt's qualifications was provided with the Applicant's Pre-hearing Conference Statement, docketed on November 19, 2007.

II. Prior Filings

In addition to the statements herein, this testimony includes by reference the following documents submitted in this proceeding:

- Eastshore Energy Center Application for Certification, Engineering and Facility Design and Transmission Line Safety and Nuisance Sections (Exhibit 1)
- Supplement in Response to Data Adequacy Comments on the Application for Certification for the Eastshore Energy Center (Exhibit 2)
- Eastshore's System Impact Study Report (Exhibit 5)
- Eastshore Data Responses Set #1, Response #'s 42 through 43 (Exhibit 6)
- Eastshore Data Responses Set #2, Response # 66 (Exhibit 8)
- Comments on the Preliminary Staff Assessment (Exhibit 13)

To the best of my knowledge, all of the facts contained in this testimony (including all referenced documents) are true and correct. To the extent this testimony contains opinions, such opinions are my own. I make these statements, and render these opinions freely and under oath for the purpose of constituting sworn testimony in this proceeding.

III. Proposed Licensing Conditions

The Staff Assessment for the project filed by the CEC recommends that twenty Conditions of Certification be adopted to address Engineering and Facility Design issues. These Conditions, GEN-1 through GEN-8, Civil-1 through Civil-4, Struc-1 through Struc-4, Mech-1 through Mech-4, and Elec-1, address applicable federal, state, and local laws, ordinances, regulations, and standards and minimizes the project's Engineering and Facility Design impacts. The Staff Assessment for the project recommends that five Conditions of Certification be adopted to address Transmission Line Safety and Nuisance issues. These Conditions, TLSN-1 through TLSN-5, address applicable federal, state, and local laws, ordinances, regulations, and standards and minimizes the project's Transmission Line Safety and Nuisance impacts. I have reviewed the Conditions of Certification set forth in the Staff Assessment and find the Conditions to be acceptable with the incorporation of the changes proposed in the Applicant's Pre-hearing Conference Statement.

DOCKET NO. 08-AFC-6**

I declare under penalty of perjury, under the laws of the State of California, that the foregoing is true and correct to the best of my knowledge and that this declaration was executed at Oakland, CA on November 21, 2007.

A handwritten signature in cursive script, reading "Thomas J. Priestley", is written over a solid horizontal line.

**Thomas J. Priestley
Senior Environmental Planner**

Visual Resources

I. Introduction

- A. **Name:** Thomas Priestley, Ph.D.
- B. **Purpose:** This testimony addresses Visual Resource issues associated with the Eastshore Energy Center Application for Certification proceeding.
- C. **Qualifications:** Thomas Priestley is presently employed at CH2M HILL as a Senior Technologist and has been for the past 6 years. Mr. Priestley has a Doctoral Degree in Environmental Planning and has 24 years of experience preparing visual resource assessments. Thomas Priestley directed the preparation of the Visual Resource section of the Application for Certification petition as well as the post-filing information, data responses, and supplemental filings. A copy of Thomas Priestley's qualifications was provided with the Applicant's Pre-hearing Conference Statement, docketed on November 19, 2007.

II. Prior Filings

In addition to the statements herein, this testimony includes by reference the following documents submitted in this proceeding:

- Eastshore Energy Center Application for Certification, Visual Resource Section (Exhibit 1)
- Eastshore Data Responses Set #1, Data Response # 44 (Exhibit 6)
- Supplemental Data Responses from the March 19, 2007 Workshop, Response # 17 (Exhibit 12)
- Comments on the Preliminary Staff Assessment (Exhibit 13)

To the best of my knowledge, all of the facts contained in this testimony (including all referenced documents) are true and correct. To the extent this testimony contains opinions, such opinions are my own. I make these statements, and render these opinions freely and under oath for the purpose of constituting sworn testimony in this proceeding.

III. Proposed Licensing Conditions

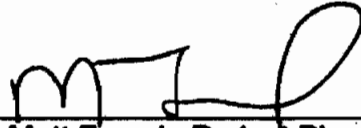

The Staff Assessment for the project filed by the CEC recommends that six Conditions of Certification be adopted to address Visual Resource issues. These Conditions, VIS-1 through VIS -6, addresses applicable federal, state, and local laws, ordinances, regulations, and standards and minimizes the project's visual resource impacts. I have reviewed the Condition of Certification set forth in the Staff Assessment and find the Conditions to be

acceptable with the incorporation of the changes proposed in the Applicant's Pre-hearing Conference Statement.
