RECD.	DEC 19 2007

State of California Energy Resources Conservation and Development Commission
Council Chamber
777 B Street
Hayward, California 94541

To whom it may concern,

My name is Alan Franke, residing at 17992 Sunol Road, Hayward, California 94541. I have been a resident of Hayward since 1984. I presently am on the board of directors for the Skywest Homeowners Association in Hayward, California representing 140 households in our community.

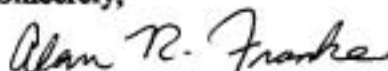

I object to the planned Eastshore Energy Center in Hayward due to the environmental hazards it proposes to the residents who live near this planned facility. The air quality in the area will be adversely affected by this proposed power plant.

I have been employed in the commercial aviation transportation industry for over 30 years. Safety has always been the number one priority in our industry. I can see a potential safety hazard to the proposed smoke stack being located too close to the Hayward Executive Airport. This is a disaster waiting to happen in inclement weather.

I ask that you reevaluate the impact this proposed facility will have on the environment and the citizens surrounding this site. Another location farther away from the Hayward Executive Airport would be better suited to facilitate this proposed energy plant.

Thank you for your attention in this matter.

Sincerely,

Alan R. Franke
