Dear Officer Geftler,

I have been watching the hearings on t.v. and after watching the majority of tonights meeting I am horrified that the Russell City plant was approved. These hearings have really made me more aware of my surroundings and have made me very worried of my family's health. I have lived in Hayward all of my 35 years, I am raising my children who go to school in Hayward, and I have enrolled in the paraeducator to teacher program with the Alameda County Office of Education, so I am committed to Hayward for at least another ten years. I'm not quite sure what role you play in the decision of these plants, but I hope you have seen what they would do to our community. On behalf of my family and the residents of Hayward please do not let this happen. I'm sure you would not want this for your family. Also, thank you for letting the public comments continue. I think we are just realizing how severe this is and we have every right to be heard. I definately will be following issues like these more closely.

Thank you

Felicia Olivares
