In the Matter of:

**RIDGECREST SOLAR POWER
PROJECT**

DOCKET NO: 09-AFC-9

**STA ADDITIONAL INFORMATION IN
RESPONSE TO COMMITTEE
QUESTIONS TO SUPPORT MOTION
FOR JURISDICTIONAL WAIVER**

On February 3, 2012, Solar Trust of America Development (STA) received through its Counsel of Record a request from the Hearing Officer assigned to this matter. Specifically the Hearing Officer requested STA to file a response to be docketed and served on all parties to answer the following inquiry:

A recent press release from Solar Trust of America (STA) announced that Solar Millennium AG, a majority equity shareholder of STA, initiated insolvency proceedings in Germany. Recent media reports further indicate that a sale of Solar Millennium's interest in STA may have been consummated.

For the benefit of the Commissioners and persons who have participated in the Ridgecrest Solar Power Project proceedings, including the proceedings that led to the Hearing Adviser's [Proposed] Commission Decision Affirming that Warren-Alquist Act Section 25502.3 Applies to Photovoltaic Electrical Generating Facilities, please confirm whether STA intends to proceed with a project and if so, how the insolvency proceedings and media reports of a sale may affect the timeline by which STA would do so.

Notwithstanding our contention that the question presented is wholly irrelevant to the matter currently pending before the Commission, the simple answer is that solarhybrid

AG, the buyer of Solar Millennium's interest in STA, intends to develop the Ridgecrest Solar Power Project (RSPP). Specifically, solarhybrid AG intends to develop a PV project that is smaller in footprint than the concentrated solar power configuration described in the RSPP AFC. The PV project will be located within BLM land (no County land) located on the south side of Brown Road thereby avoiding the desert tortoise habitat located north of Brown Road and avoiding the Mohave Ground Squirrel habitat corridor identified within the main wash area located on both sides of Brown Road. With respect to timing, neither STA nor solarhybrid AG can commit to date for filing of a PV Project for RSPP as development has been suspended until the Commission rules on the motion.

BACKGROUND

STA originally approached CEC Staff for guidance on the applicability of Section 25502.3 of the Warren Alquist Act to projects that would employ PV technology. Staff instructed STA Counsel to file a motion specifically in a proceeding involving a project that was seeking to employ PV technology. STA then filed the pending motion in this proceeding. That original motion was filed on June 17, 2011. The Committee ordered briefs which were filed by the parties on July 6, 2011. Oral argument took place before the Committee on July 25, 2011. On July 28, 2011, the Committee requested the Commission take the matter from the Committee as the decision would be precedential and would affect stakeholders beyond those involved in the Ridgecrest Proceeding. The Commission agreed and withdrew the motion from the Committee on August 24, 2011. On September 16, 2011 the parties filed Supplemental Briefs answering specific questions posed by the Commission. On December 5, 2011 after consideration of all documents in the matter, the assigned Hearing Officer published a Proposed Decision.

STA is entitled to a decision on its motion. The hearing on the Proposed Decision has been continued twice with the latest continuance being indefinite with no specified date. The Commission has had the issue under advisement for over 5 months. STA respectfully requests that the Commission rule on this matter and specifically requests the Commission adopt the Proposed Decision as its own.

Respectfully Submitted,

February 16, 2012

Scott A Galati
Counsel to STA
