**Subject:** Proposed Eastshore Power Plant

I am faculty at Chabot College and a resident of San Lorenzo. I strongly support Presiding Member Jeffrey Byron's current recommendation to DENY the application to build the proposed Eastshore Power Plant. This plant will not in any way contribute to the health or welfare, including economic and practical, to the surrounding communities. It is a power grab by special interests and just plain wrong.

Committee members, do the right thing and DENY THE APPLICATION. Thank you.
