

07/25/08

Dear Members of the California Energy Commission,

We are three (3) of the many residents of Hayward who are saying no to the East shore power plant.

Your choice is between, money values or life values. It is that simple!

This plant will further poison our local environment impairing our health and safety, further degrade our property values, and jeopardize airport safety. These are life values.

Please say NO to the developer.

Thank you for your attention on this matter
