Subject: Eastshore Energy Center: 06-AFC-6 ; Staff Reply Brief
CC: Docket Optical System

Hearing Office Gifter:

Yesterday, Intervener Robert Sarvey filed a document entitled Section 1231 Complaint. In that document, he states, among other things, that the staff Reply Brief for the EEC project erred in stating on page 2 that he raised three issues for the first time in his Opening Brief. Mr. Sarvey is only partially correct; however, in order to avoid a protracted debate about the accuracy of the statement, staff requests that the Committee disregard the paragraph beginning at the bottom of page 2 in its entirety. The staff conclusion about the project's air impacts is unchanged.
