TO: AGENCY DISTRIBUTION LIST**APPLICANT REQUEST FOR SUSPENSION OF THE REVIEW OF THE BULLARD ENERGY CENTER, APPLICATION FOR CERTIFICATION (06-AFC-8)**

On August 6, 2007, Bullard Energy Center, LLC (applicant), submitted a request to suspend the review of their Application for Certification (AFC) to construct and operate a simple-cycle electrical generating facility, the Bullard Energy Center (BEC), in Fresno, California. Due to the fact that the landowner of the original proposed project site will not renew the applicant's option to purchase that parcel of land, the applicant is now pursuing a long-term lease agreement for the parcel of land adjacent to the original proposed site. At this time, the applicant is also working with the city of Fresno to amend the City General Plan and to change the zoning classification of the new site from M-1 (light industrial) to M-3 (heavy industrial).

The Energy Commission issued an order to suspend the Bullard Energy Center proceedings on August 28, 2007, for a period of one year. Per the order, the applicant is required to file and serve monthly status reports beginning November 1, 2007, and continuing every 30 days thereafter in order to ascertain whether progress is being made in developing the project.

At this time, we are requesting that participating agencies suspend all work pertaining to the review of the Bullard Energy Center AFC until the project is ready to move forward. If you have any questions, please contact Mary Dyas, Energy Commission Project Manager, at (916) 651-8891, or by e-mail at mdyas@energy.state.ca.us.

Roger E. Johnson, Manager
