Re: Colusa Generating Station Project: Docket No. 06-AFC-9

Dear Mr. Caswell:

Consistent with the manner in which the California Energy Commission is proposing to condition the Panoche Energy Center (see, Presiding Members Proposed Decision, released November 13, 2007, Docket No. 06-AFC-5, p. 50), we request that condition GEN-1 as set forth in the Preliminary Staff Assessment issued for the Colusa Generating Station be modified in the Final Staff Assessment to clarify that regardless of which version of the California Building Code is applied to other aspects of the project, the equipment to be provided by General Electric will be subject to the 2001 version of the Code.

Please let me know if you have any questions or concerns regarding this request.
Thank you for your attention to this matter.

Very truly yours,

Michael J. Carroll
