Jack Caswell  
Project Manager  
California Entergy Commission  
1516 Ninth Street, MS-15  
Sacramento, CA 95814

Dear Mr. Caswell:

Re: 06-AFC-9 The proposed Colusa Generation Station:

We the Dirks and Barrett Families own the property on both sides of Dirks Rd. the portion that is between Delevan Rd, and the Glenn-Colusa Bridge. We are concerned about the access issues, irrigation issues and the possibility that we may not be able to plant our crop in May of 2008.

We have spoken to the county road department about the concerns regarding Dirks Rd. and we were informed that we owned the road, which has a public right away. The road is for normal traffic use and, if used for heavy construction trucks, the company needs to be responsible. We are very concerned about this, because there is a culvert under the road that drains our rice field. The culvert consists of a metal pipe 4 feet in diameter, that will collapse if heavy construction truck traffic uses this road. We plant our organic rice in May and the water needs to flow through the drainpipes until October of 2008. If the pipe is damaged and we cannot release the water, our rice crop will be jeopardized.

A surveyor was sent yesterday by E. & L. Westcoast to mark the site; because of the layout and timing of the project, we may have irrigation problems, which could prohibit us from planting our crop. We need to meet with E. & L. Westcoast engineers and Glenn-Colusa Irrigation Dist. personnel to discuss these issues.

We have been discussing some concerns with Mr. Chris Curry, from E& L Westcoast, over the last several months. Unfortunately, at this time we are very frustrated with the lack of progress in the negotiations and the indecisive attitude of E. & L. Westcoast.

Sincerely,

Donna Barrett

Jack Barrett
