Donna,

I wanted to follow up our discussion of yesterday and make sure we were all clear on our next steps. Under our responsibility is to:

- Create a first draft of an agreement
- Line up an engineer to be able to discuss the details of the bridge
- Continue to work with the engineer to determine the best way to minimize impacts to you
- Work with the permitting agencies on the restriction for the time of year the work can be done
- Think of other potential issue that need to be addressed

In the meantime you were going to:

- Figure out some dates that would work for you and your husband, as well as the Dirks, to have a meeting
- Get us information on the cost of loss of use of field and of loss of crops
- Make a brief schedule for us of your planting, harvesting, and other important farming activities
- Think of other potential issues that need to be addressed

I look forward to working out arangemenst with you on this project.

Andrew C. Welch, PE
