Field trip route

*County boundary mo

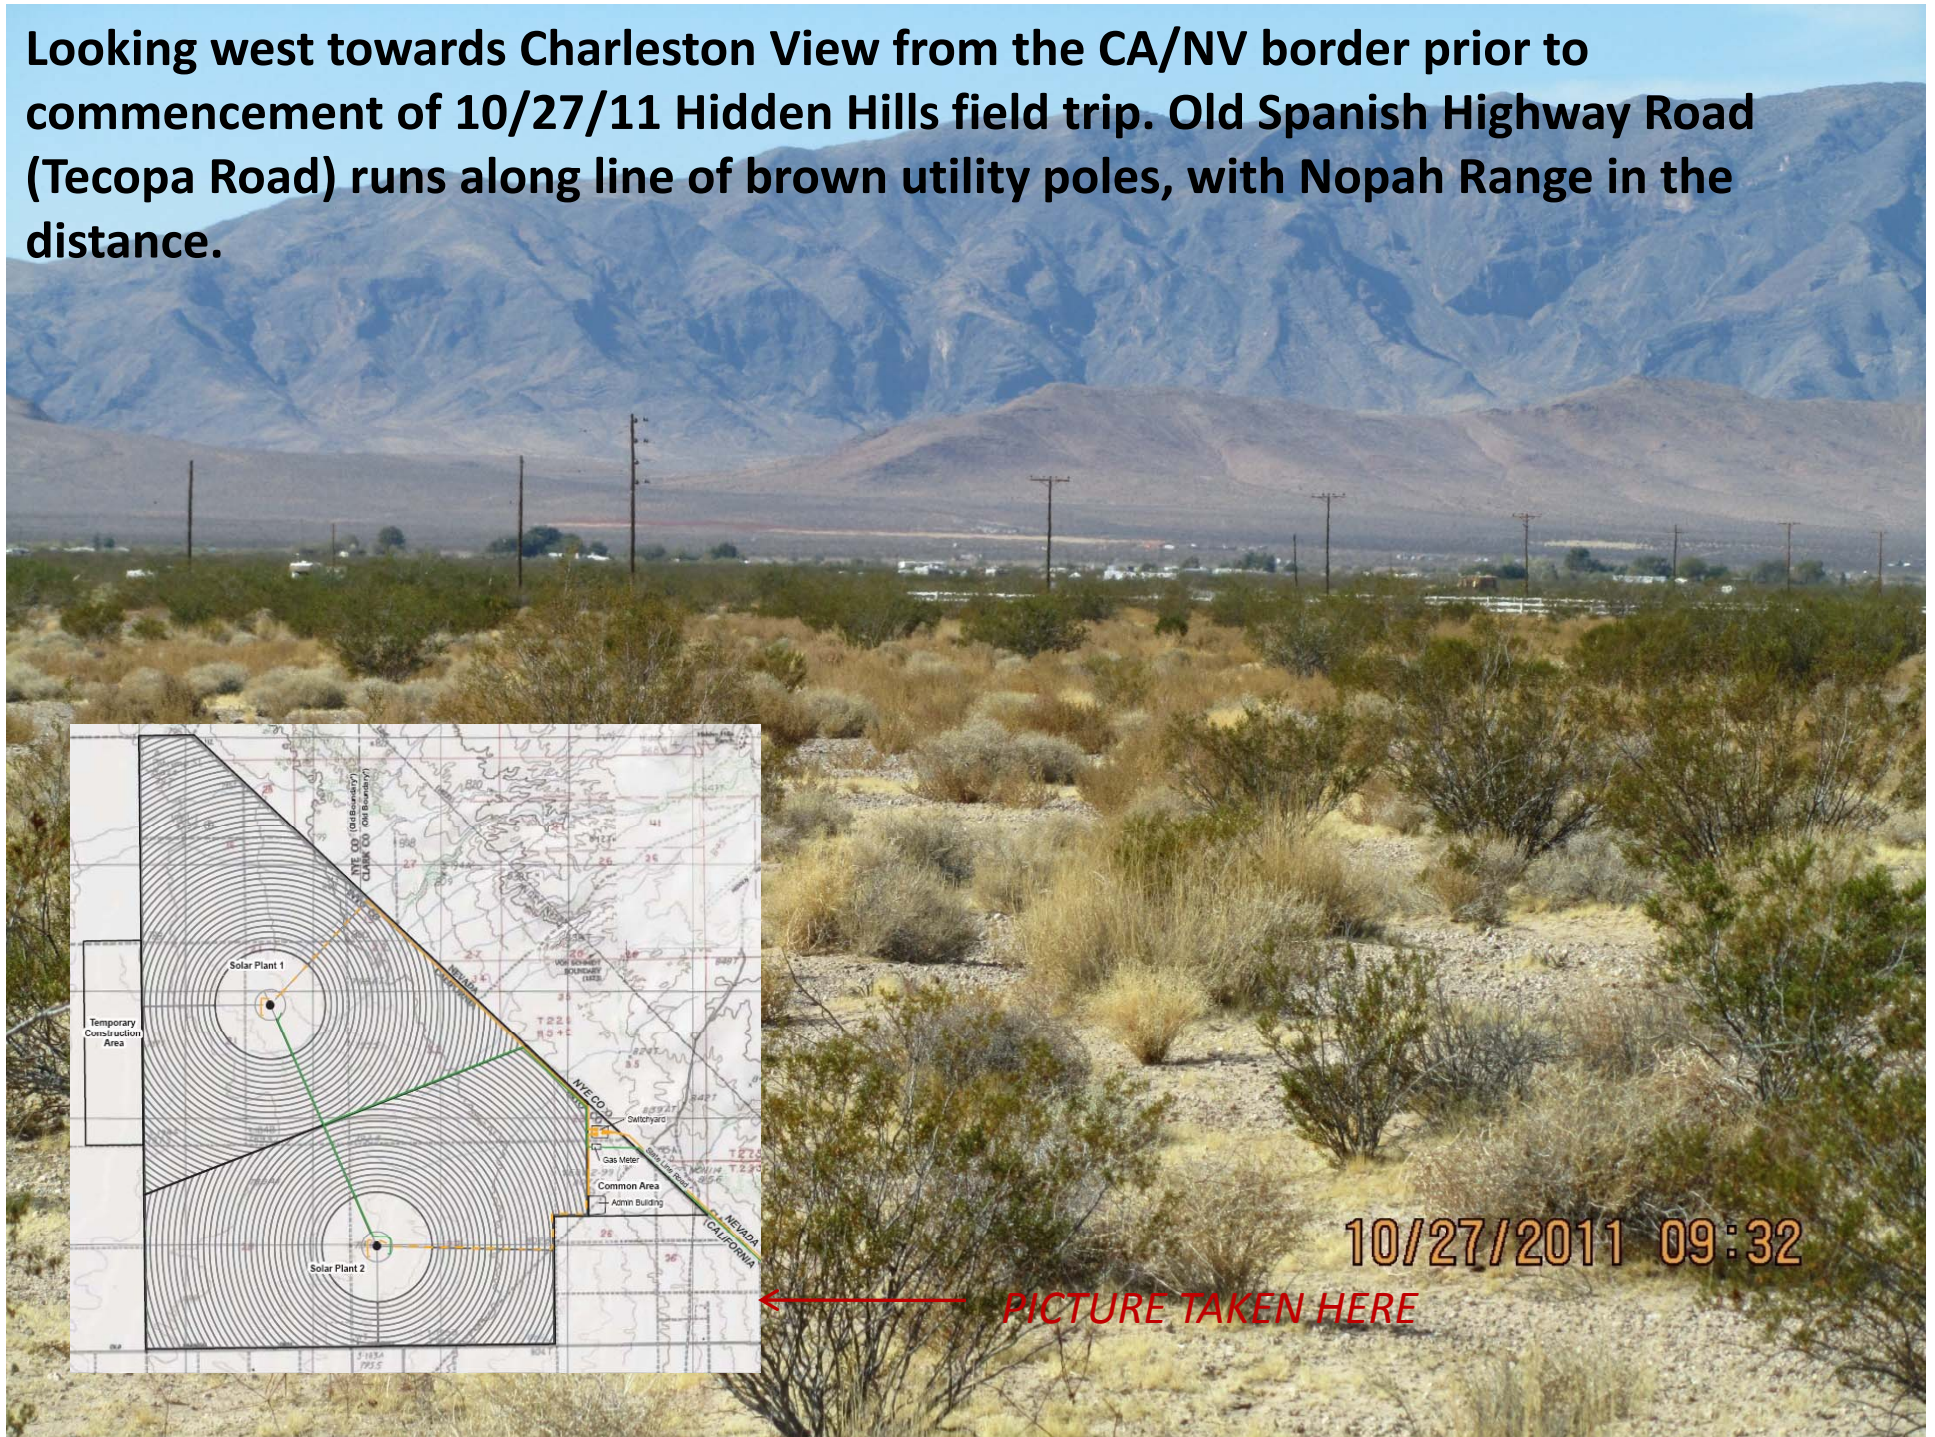

**Staff preparation for commencement of October 27, 2011
Hidden Hills field trip, looking northwest along California-
Nevada state border, which runs the entire length of the
eastern boundary of the proposed Hidden Hills facility
(including Solar Plant 1, Solar Plant 2 and Common Area).**

10/27/2011 09:37

PICTURE TAKEN HERE

Looking west towards Charleston View from the CA/NV border prior to commencement of 10/27/11 Hidden Hills field trip. Old Spanish Highway Road (Tecopa Road) runs along line of brown utility poles, with Nopah Range in the distance.

10/27/2011 09:32

← PICTURE TAKEN HERE

From CA/NV border, looking southwest towards planned St. Theresa Mission development (surrounded by white picket fence with elevated water tank and nearby residence).

**PICTURE

10/27/2011 09:51

Looking west from the CA/NV border towards the Project site, with the Nopah Range in the distance. Overgrown road indicates sub-divided parcels for previously planned housing development.

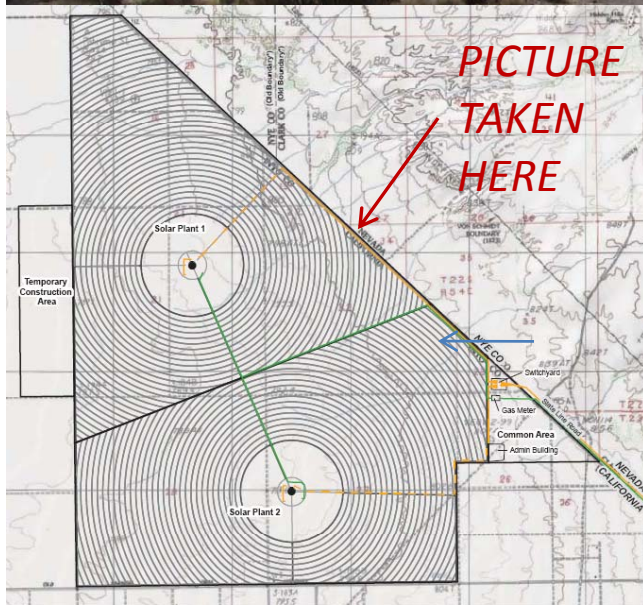

PICTURE TAKEN HERE

10/27/2011 09:54

Looking south over the Project site with Charleston View community and the Kingston Mountain Range in the distance. Pictured is a weakly braided ephemeral wash, which appeared on the western border of Solar Plant 1 running along the CA/NV border.

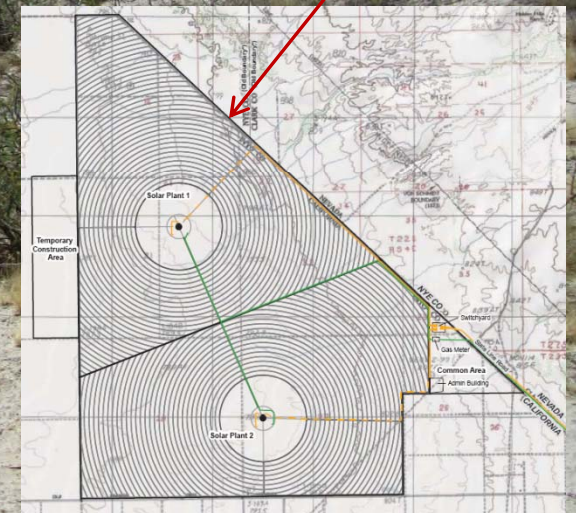

Looking south from the CA/NV border over the Project site with Charleston View community and the Kingston Mountain Range in the distance. Road indicates subdivided parcels for previously planned housing development.

10/27/2011 09:56

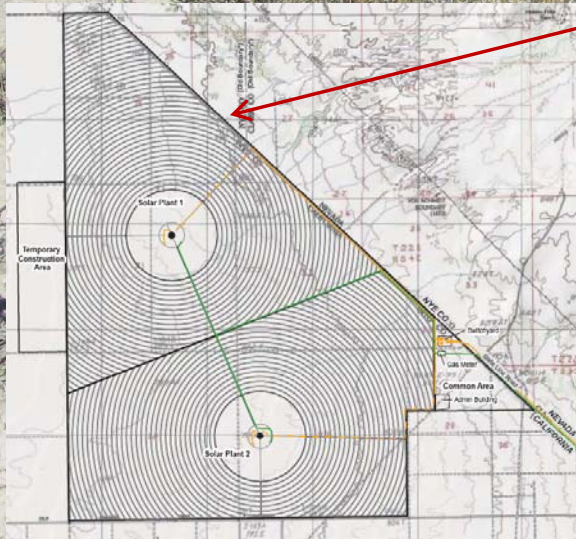

Looking southwest from the CA/NV border along a deep ephemeral wash that ran from Nevada into California and the proposed project site. This feature is the subject of an Army Corps of Engineers Section 404 “Waters of the US” study determination.

10/27/2011 09:57

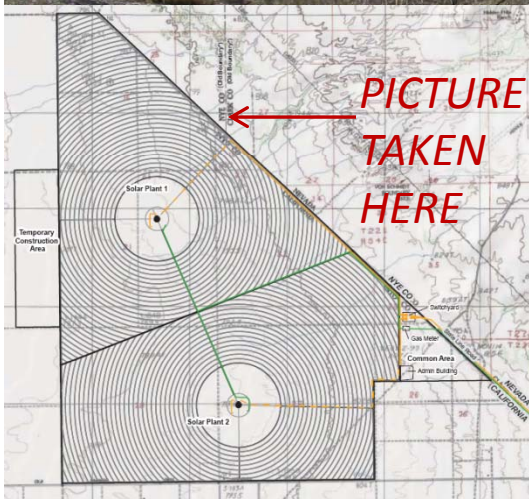

Looking east from the CA/NV border along a deep ephemeral wash that runs from Nevada into California. This picture was taken in the wash, looking back into Nevada from the project site.

PICTURE TAKEN HERE

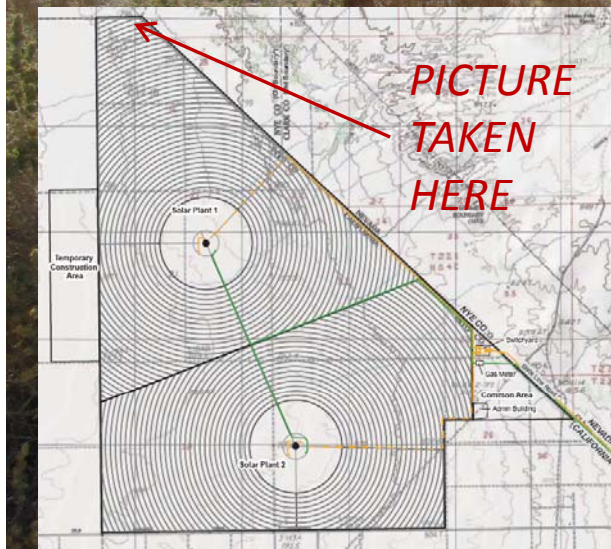

10/27/2011 09:58

Looking west from the CA/NV border along a deep ephemeral wash that runs from Nevada into California. This feature is the subject of an Army Corps of Engineers Section 404 "Waters of the US" study determination.

10/27/2011 09:59

Looking southwest from the northern reach of the proposed Project (Solar Plant 1) towards the area on the horizon between the Kingston Range and the Nopah Range.

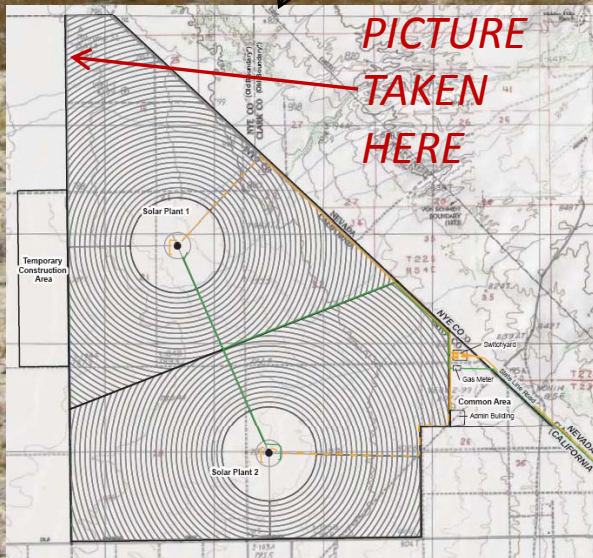

**PICTURE
