As a concerned citizen, I **strongly oppose** a **(1) MHPA Boundary Line Adjustment**, **(2) Community Plan Amendment of Open Space**, **(3) Rezone** of (RS-1-8) residential zoning to industrial zoning within the East Elliot Community Plan area, and **(4) Revision** of the City's Multi-Species Conservation Program (MSCP) Subarea Plan, all of which actions are intended to facilitate the siting of a Power Plant.

I request the power plant be reviewed not at 43% operation but at 100%. I believe if Cogentrix is able to receive approval at 43% operation, it will only be a matter of time before they request approval to run at full plant capacity without public notification again. A company does not build a \$500 Million Dollar plant to run it at 43%.

I am very disappointed by California's law/requirement on public notification on this proposed plant. As I inform my neighbors who will be impacted the most by the proposed plant, the first reaction is of shock on not receiving any information from SDG&E, Cogentrix or City of San Diego. Prior to any approvals, I strongly request all communities within 10 miles of this plant be notified through mass mailing via post card/bulk mail or possibility an insert in our SDG&E bill which we all receive on time monthly. I know the cost to notify the public is minimal to Cogentrix and SDG&E.

Additionally, I respectfully request the CEC to consider the **"No Project Alternative"** for Docket #11-AFC-03 Quail Brush Generation Project Power Plant Licensing Case.

Respectfully,

Mia Mortellaro
 Santee Resident
