Please reject the CPA Initiation!!! A rezone from open space to industrial would be a breach of public trust and create significant adverse impacts to the environment. The conflicts with local laws, ordinances, regulations and standards "LORS" are too numerous to initiate any further consideration of this dreadful action. The impacts are so severely adverse that any initial action requires a full environmental impact report – there is absolutely no justification for an exemption or deferral of environmental analysis to a later date or different agency. Furthermore, the Tierrasanta Town Council did not support initiation of the CPA and the item was pulled from Navajo Community Planners agenda. The prospect of degrading Mission Trails Park and neighboring communities has been vigorously opposed at every public hearing – it should now be opposed by your vote!
