To whom it may concern,

As residents of Santee, we are pleading with you to not allow this Gas Power Plant to go up so close to our home. We are only a stone's throw away from where it is scheduled to be built. Honestly, the visibility is a concern- BUT MORE IMPORTANTLY the health concerns of having a gas power plant less than a couple minutes walking to distance from our homes is absolutely disgraceful. We have 2 small children, and another baby on the way. The release of toxins from this plant is detrimental to their health. As well as every other child's in the community, of which there are many since this a family community. Please think of your own children, grandparents, parents and loved ones- how would you feel if this power plant was to be built just so many feet away from their doorsteps, especially knowing the harmful effects that it causes to their health, leading to Cancer, Respiratory problems, among many others. Please, from the bottom of our hearts, put yourselves in our shoes. Please stop this Power Plant from going up in our backyards, put it somewhere far from residential areas, parks and schools so that not a single person can be affected by the horrible toxins that it will release. Thank you

Tara Chaparro
