To: Solorio, Eric@Energy

Dear Mr. Solorio,

I am writing to express my extreme disappointment that the CEC wants to take away an area designated as OPEN SPACE and re-zone it for a huge power plant.

I understand this land was donated by the federal government for OPEN SPACE. So why is it even being considered as a power plant site, especially when it is adjacent to residences and schools?

Cogentrix is funded by Goldman Sachs, *the company that brought us the worst economic crisis in 80 years*. They will not keep any promises about "changing project views" or "mitigating" environmental damage.

The money would be better spent on giving solar panels to every residential and commercial property in Santee.

Best regards,

Rebecca Gray
