Subject: CEC record-docket #11-AFC-03 Quail Brush Power Generation sitingcase

i am a current citizen in Santee california and would like to petition this power plant from being built. it is right next to a school and there will be 18 months of construction it will make traffic on MAst blvd much greater than it already is, will create a large amount of pollution in santee, millions of gallons of water for construction will be used up threatenign future public water and the fact that our property value will sink even lower! so please take all this into consideration before u add this power plant

sincerely, samuel moreno
citizen of santee
