Subject: "CEC record-Docket #11-AFC-03 Quail Brush Power Generation Siting Case."

QUAIL BRUSH COMMUNITY PLAN AMENDMENT INITIATION –PROJECT NO. 2011-04

The Quail Brush project conflicts with the following documents: the East Elliott Community Plan, which designates the site as Open Space; the General Plan, which designates the site as Park, Open Space, and Recreation; and the Municipal Code, which designates the site's zoning as single-family residential (RS-1-8). Cogentrix wants to amend the Community and General Plan by initiating a rezoning from residential to industrial in open space area that was designated to be protected. In addition, it will affect my family specifically by polluting the air, decreasing my property value, and forever altering Mission TRails Regional Park.

My property is 1/4 mile away from Mission Trails Regional Park, yet I have received no official information from the developers about the changes they desire to make. Isn't it a requirement that they inform the community about a change that will significantly impact my quality of life and the quality of life of hundreds of others in the Santee community? Please do not allow this land to be re-zoned for industrial use when it was designed to be open space.

Sincerely,
Stacey Miller and family
Santee, CA 92071
