Subject: CEC record-Docket #11-AFC-03 Quail Brush Power Generation Siting Case

My name is Yvonne Lawrence and I live on Stoyer Dr. in Santee, 92071. As a resident of Santee and having a daughter who will be attending West Hills High School next year, I am opposed to the re-zoning and allowing the open space to be used as the location for the Quail Brush Power Plant . Mast Blvd. can't handle any more traffic and with all of the young people driving to campus, the extra vehicles will be an added detriment to them. I would like my daughter to start cross country but will not want her running in an area where the air quality has been compromised. My home is one mile from the proposed site and the value of my house will decrease if the power plant is close by. Our favorite thing to do is walk at Mission Trails and it will also have the air quality problem. Please consider if you would want this near your home or your child's school and make the right decision to oppose this location. Thank you.
