Subject: CEC record-Docket #11-AFC-03 Quail Brush Power Generation Siting Case

Hello,

I've written a letter before and I'm writing one again to remind everyone I am opposed to the Quail Brush Power Plant. This would be 2 miles from my home (which I own) and would heavily impact my quality of life for many years to come, if not change it completely. And it would not be a good change.

I heard on the news that SDG&E stated power will be okay for this year. Why, then are we building this abomination? That gives you a least a year to think of a different solution. Putting a power plant less than a mile from a high school and practically inside of a national park and thousands of San Diego residents destroy is a very stupid decision.

Thank you,
Tracey Barraza
Santee, CA
