Subject: CEC record Docket #11-AFC-03 Quail Brush

My name is Alan Stuart I live in Santee California at 9435 Lake Canyon Road. I have lived there since I was 2 years old (19 years). I have been an active user of Mission Trails since I went there on a third grade field trip. I am **against** the plan to build the Quail Brush Power Plant near Santee. In fact I am against it being built anywhere. What the world needs is sustainable renewable energy so that we can combat global climate change. Building a gas powered power plant is counter productive. But marketing it as renewable energy is disgusting lying. Please **do not** build this power plant. Please start *actually* moving towards renewables and stop **lying**.

-Alan Stuart

P.s. I wrote this article about the awful Quail Brush Power Plant. I hope you read it. We don't want this in our community and the world **demands clean, renewable, sustainable energy, NOW!**
