Subject: Quail Brush Power Plant

Dear Mr. Solario,

The "Quail Brush Power Plant" (11-AFC-03) will not only violate numerous current land use plans/regulations but will also negatively impact the tranquility of Mission Trails Regional Park (a wonderful asset for people living throughout San Diego County). Additionally, it makes no sense to build a plant that will create known health risks in an area frequented by many people and in close proximity to West Hills High School and a number of Little League fields. I ask that you please consider the negative consequences of this project and ask SDG&E to seek a better location for this plant.

Sincerely,

Alan Breininger
