Subject: CEC record-Docket #11-AFC-03 Quail Brush Power Generation Siting Case.

We are homeowners in Santee and frequent Mission Trails Park as our daily pleasure outings. What you are proposing doing here will ruin our "haven" forever. Surely there are other "out of site and out of air space" lots within San Diego County that would be more suitable for this endeavor. Why anyone would consider such a destructible project of this magnitude in a setting so disruptable to an entire community is completely beyond our comprehension.

We would be curious to see reports on what "long term affects" this pollution will cause ourselves and our children, not to mention the "currently" peaceful wildlife who currently call Mission Trails Park HOME.

We are angry and will do everything in our power to "STOP" this ludicrous endeavor.

Jackie and Dennis Newbeck – Homeowners Santee

"Mission Trail Regional Park user."
