I urge you to consider the affect that this power plant will have on the community.

It is more than just an EIR. It is the culture and recreational value of the Mission Trails Park itself.

Yes, there is a waste disposal site also in the area – but does it make noise? No.
Is it visible to the residents in West Santee? No.

At a minimum, at least locate this plant where it is not visible.
Like as far from housing as the waste facility is.

Ideally, I'd like you to consider the "No Project Alternative that uses conservation as a strategy."

Thank you for your time,

Sincerely;

Richard Wallace
