Subject: Stop the Santee Power Plant

Hello, I hope you are familiar with the effort to erect a new power plant in the Santee area, near the Mission Trails area. I find this very concerning, and believe that our elected officials in San Diego should do what's possible to stop this plan.

I spend a lot of time on the trails around San Diego and have seen the negative effect that construction can have on the environment. I can't imagine how much a power plant will ruin Mission Trails, and Mission Trails is one of Santee's few treasures. The city should do everything it can to protect that space, and shouldn't allow a power plant to be built so close.

Thank you for your time.
