RE: CEC record-Docket #11-AFC-03 Quail Brush Power Generation Siting Case

I respectfully request you oppose the placement of the Quail Brush Energy Project adjacent to Santee, CA. While I understand that this is technically within San Diego City limits the unfortunate residents of Santee are the ones who will deal with the pollution. I live directly East of this proposed site and the westerly winds will deliver the fallout into our neighborhood on a daily basis. I absolutely feel certain the residents of San Diego would not tolerate such a poorly thought out project being placed in their neighborhood. The residents of Santee deserve the same consideration. I urge you to publicly oppose this project at every level you can.

Thank You,
Larry Lay
